**Faster** James Gleick,1999 Synchronize your watches We have reached the epoch of the nanosecond This is the heyday of speed If one quality defines our modern technocratic age it is acceleration We are making haste Our computers our movies our sex lives our prayers they all run faster now than ever before And the more we fill our lives with time saving devices and time saving strategies the more rushed we feel In **Faster** James Gleick explores nothing less than the human condition at the turn of the millennium He shines a light of enterprising and analytical reporting as well as sly wit on the newest paradoxes of time His journey takes us through the bunkers and trenches of a war we barely knew we were fighting to the atomic clocks of the Directorate of Time to the waiting rooms that focus our impatience to the film production studios that test the high speed limits of our perception to the air traffic command centers that give time pressure new meaning We have become a quick reflexed multitasking channel flipping fast forwarding species We don't completely understand it and we're not altogether happy about it **Faster** is a mirror held up to our times and a mordant reminder of why some things take time **Faster** James Gleick,2000-07-06 Unfettered Hope Marva J. Dawn,2003-01-01 Dawn identifies the social and cultural issues and attitudes that contribute to despair and lack of hope in the world and provides a way for Christians to identify appropriate primary concerns around which they should live their lives **Why It's Hard To Be Good** Al Gini,2013-10-31 In a series of brief chapters Al Gini lays out ideas for stepping out of the shadow of the self an argument for stopping thinking of yourself as the centre of the universe It's hard to be good he explains until we realize that being good only has meaning in relation to other people Ideas of justice fairness and ethical behavior are just that abstract ideas until they are put into action with regard to people outside ourselves We may worry too much about good versus evil big concepts that give us plenty of room to sit on the right side of the equation he argues Instead we need to be thinking about how being good involves an active relationship toward others Being good all by yourself may not be good enough This warm and generous book is for anyone who wants to know how to use ethical thinking as way to live work and be with others The Impact of ICT on Quality of Working Life Christian Korunka,Peter Hoonakker,2014-04-25 This book discusses the impact and effects of Information and Communication Technologies ICT on quality of working life of employees It describes the changes and the acceleration of processes caused by the widespread use of ICT in a broad range of working areas and in different national contexts It explores the important role ICT has come to play in nearly all work places in developed societies and the impact it is starting to have on work places in developing countries The book brings together experts from the fields of ICT and quality of working life and from a variety of backgrounds and disciplines including sociology psychology industrial engineering and macro ergonomics It discusses the range of current positive and negative effects as well as the possible increase of both kinds of effects in the future The final chapter of the book integrates the diverse perspectives of the authors and gives recommendations on how to increase the possible positive outcomes and to diminish negative effects of ICT in an accelerated

society     Making Interdisciplinary Performance Gianna Bouchard,Adam J. Ledger,2025-05-15 This collection offers an examination of and guide to interdisciplinary collaboration through the working practices of performance makers exploring its pleasures problems and pitfalls The book explores contemporary working practices at the interfaces between performance and other disciplines Focusing on collaborations between theatre makers and these others it investigates the processes and conditions involved in the interdisciplinary Chapters cover areas such as psychology the environment physical cultures the military healthcare festivals and communities architecture pedagogy and fine dining At a time when interdisciplinary practice is actively encouraged in the academy this book asks what it means in practical terms to engage with artists and scholars outside of our home territories Where does the interdisciplinary exist and what does it rely on How do theatre makers approach and sustain these projects What is the nature of the journey Offering examples of unusual collaborations and arranged through 3 key areas of performance making this book acknowledges the difficulties of such work and that the aims of interdisciplinarity can fail while examining how new methods and understandings can shift notions of knowledge

*Authentic Faith* Gary Thomas,2009-07-27 The faith God calls us to is far more than glowing positivism that shields us from life's struggles It is one that guides us into a deepening intimacy with the God who sustains us in the broad sweep of life Bestselling author Gary Thomas helps us sharpen our spiritual vision and fortify our commitment to Christ by examining ten disciplines God uses to forge a fire tested faith A biblical view of these disciplines can safeguard us from disillusionment when not if difficulties surface in our lives Sharing scriptural insights the wisdom of Christians through the centuries and cogent personal observations Thomas explores the disciplines of selflessness waiting suffering persecution social mercy forgiveness mourning contentment sacrifice hope and fear As Thomas reminds us faith is about something other than a smooth ride through this fallen world Rather authentic faith is shaped tempered and purified in the flames of struggle This eye opening look at what it means to be a true disciple of Jesus will encourage you bolster your faith and help you rise above shallow attachments to fix your heart on things of eternal worth     **Post Ex Sub Dis** Ghent Urban Studies Team,2002 Post

ex sub and dis these are but a few of the prefixes that have been used to compose neologisms for describing the contemporary cityscape Terms such as posturban space postsuburbia exurbia and disurbia are part of a dizzying collection of often hotly contested labels This plethora demonstrates how difficult it has become to name map and analyse the cityscape Urban environments have come to evince a radically chaotic and fragmented structure This book explores how fragmentation has acquired new meanings and how the urban landscape is constantly being deconstructed and reconstructed Richly illustrated with works by artists and photographers the volume contains a series of essays on spatial social and cultural issues written by distinguished scholars from an unusual variety of disciplines     **Is the American Dream Killing You?**

Paul Stiles,2005-10 The market is the collective name for every act of buying and selling we participate in It governs our economy and our lives determining our values our goals and our accomplishments We make it and are made by it In Is the

American Dream Killing You Paul Stiles shows how the pressures of the market are causing undue stress in all our lives He explains why there is so little trust in companies why it seems harder to feel secure and why we never seem to be able to rest anymore In this stunningly well researched and elegantly argued book Stiles shows that the harried anxious lives we lead have one common pressure the market **The Designer's Atlas of Sustainability** Ann Thorpe,2007-06-20 Publisher

description *Seeing Further* Bill Bryson,2010-11-09 Bryson is as amusing as ever As a celebration of 350 years of modern science *Seeing Further* it is a worthy tribute The Economist In *Seeing Further* New York Times bestseller Bill Bryson takes readers on a guided tour through the great discoveries feuds and personalities of modern science Already a major bestseller in the UK *Seeing Further* tells the fascinating story of science and the Royal Society with Bill Bryson's trademark wit and intelligence and contributions from a host of well known scientists and science fiction writers including Richard Dawkins Neal Stephenson James Gleick and Margaret Atwood It is a delightful literary treat from the acclaimed author who previous explored the current state of scientific knowledge in his phenomenally popular book *A Short History of Nearly Everything*

*The Human Organization of Time* Allen C. Bluedorn,2002 Particularly valuable to those involved in the management and organizational sciences since much material from those fields informs the discussion this book considers several answers to the question of the true nature of time It demonstrates that humanity creates a variety of times and the times affect the experiences of life as times vary so does life **Academy** ,2000 Strategic Finance ,1999 This Virtual Life Andrew Evans,2001 As the media becomes more sophisticated and lifelike we spend more and more time in front of television screens Distinguished psychologist Andrew Evans examines this warping of reality and asks where such a path will lead us the 21st century presents serious challenges to us all However our children are growing up thinking the world can be saved by super heroes crashed lanes start again at the flick of a switch and people come back to life for the next round The author looks at the effects of this distortion of reality maybe our need to escape the boredom and routine of every day life is being exploited by the companies who make money by selling us fantasy and simulation From humour and comedy to science fiction and computer games Evans examines the variety of distractions available to take our minds off the daily grind But how does this new media affect today's children What will be their future tomorrow And have we become so reliant on escapist fantasy that reality can no longer be faced *Forbes* ,1999 **Finding the Still Point** Tom Harpur,2005 Tom Harpur shows how ancient wisdoms together with exciting new scientific findings are combining to show why mere coping techniques are not enough for meeting the stress crisis Divorced from their spiritual underpinnings and or religious understanding such techniques lack the potency which they originally had Central to a spiritual response to stress is the practice of spiritual meditation in its various forms While many within traditional Christianity still view meditation with suspicion Harpur shows it to be one of the lost jewels of a historic treasury of Christian gifts designed for healing More than that it is a revitalizing gift which the church can reclaim for its own sake and offer the outside church who are seeking identity meaning and purpose *Compassion in Architecture*
