First Steps In Research Kobusmaree:

First Steps in Research Kobus Maree, 2007 This much needed title is an introductory text for novice researchers undergraduate students or junior postgraduate students who are encountering research methodology for the first time

First Steps in Research Kobus Maree, 2016 Sexuality, Oppression and Human Rights Júlia Tomás, Nico Epple, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2015 The gradual demystification of sexuality leads to its slow departure from long date traditional honour codes This evolution in thought and in attitude allows one to observe new and not so new mentalities and behaviours Sexuality is indeed a social construct that can encompass physical and or symbolic domination and viciousness It concerns women and children as well as men It involves every culture every country and every population This anthology presents interdisciplinary studies with a human rights based approach from researchers and social workers around the world The essays discuss sexual violence and its social ramifications and violence against various sexualities It aims at elucidating not only contemporary historical and social facts related to sexual exploitation and sexual violence but also discourses that perpetuate sexual oppression Moreover it offers the reader insights into prevention methods and last but not least it presents individual and collective creative tools to combat sexual domination

Leadership Approaches to Negotiate Challenges in a Changing Education Landscape Leentjie van Jaarsveld, Kobus Mentz, Charl C. Wolhuter, 2020-12-31 The argumentative point of departure of this scholarly book is the common conviction of specialists in the field of education in South Africa that the national education system is not at a satisfactory level in both the academic and the public discourse Such allegations are made and frequently stronger adjectives than non satisfactory are used Results of international test series in which South Africa has participated such as the 2015 TIMSS tests confirm the negative verdicts found in the public and scholarly discourse This book aims to argue that although the lack of performance could be attributed to a multiplicity of factors one factor that can make a difference in the achievement levels obtained by learners in schools is leadership The book demonstrates that a particular problem of both the scholarly and the public discourse on education in South Africa is an overtone of defeatism or resignation blaming all ills in the education system and educational institutions on historical legacies and or contextual factors such as socio economic deprivation in the catchment areas of schools or poor resources and infrastructure This collected work was inspired by a recently published spate of articles on top performing schools including top performing schools in rural communities in which it was demonstrated that good leadership can overcome such contextual and other challenges The book unpacks the issue of leadership in South African schools from a variety of perspectives thus contributing to the development of the scholarly discourse on Educational Leadership in South Africa The target audience of the book is scholars of Educational Leadership The research reported in the chapters draw on a wide range of methodologies including empirical survey research questionnaires and interviews critical literature surveys and the comparative method **First steps in research**
