Life in the Age of Drone Warfare Lisa Parks, Caren Kaplan, 2017-10-19 This volume's contributors offer a new critical language through which to explore and assess the historical juridical geopolitical and cultural dimensions of drone technology and warfare. They show how drones generate particular ways of visualizing the spaces and targets of war while acting as tools to exercise state power. Essays include discussions of the legal justifications of extrajudicial killings and how US drone strikes in the Horn of Africa impact life on the ground as well as a personal narrative of a former drone operator. The contributors also explore drone warfare in relation to sovereignty governance and social difference, provide accounts of the relationships between drone technologies and modes of perception and mediation and theorize drones' relation to biopolitics, robotics, automation and art. Interdisciplinary and timely, Life in the Age of Drone Warfare extends the critical study of drones while expanding the public discussion of one of our era's most ubiquitous instruments of war. Contributors: Peter Asaro, Brandon Wayne Bryant, Katherine Chandler, Jordan Crandall, Ricardo Dominguez, Derek Gregory, Inderpal Grewal, Lisa Hajjar, Caren Kaplan, Andrea Miller, Anjali Nath, Jeremy Packer, Lisa Parks, Joshua Reeves, Thomas Stubblefield, Madiha Tahir.

Creativity and Strategic Innovation Management Malcolm Goodman, Sandra M. Dingli, 2017-03-27 Creativity and Strategic Innovation Management was the first book to integrate innovation management with both change management and creativity to form an innovative guide to survival in rapidly changing market conditions. Treating creativity as the process and innovation the result, Goodman and Dingli emphasise the importance of a strategic approach to management through fostering creative processes. Revised and updated for a second edition, this ground-breaking book now includes a new section on contemporary themes in innovation management such as the use of social media and sustainability. More coverage of entrepreneurship, ethics, diversity issues and the legal aspects of technology and innovation management. More international cases and real-life examples. The book is also supported by a range of new tutor support materials. This textbook is an ideal accompaniment to postgraduate courses on innovation management and creativity management. The focused approach by Goodman and Dingli also makes it useful as supplementary reading on a range of courses from management of technology to strategic management.

How to Lose the Information War Nina Jankowicz, 2020-06-11 Since the start of the Trump era, the United States and the Western world have finally begun to wake up to the threat of online warfare and the attacks from Russia who flood social media with disinformation and circulate false and misleading information to fuel fake narratives and make the case for illegal warfare. The question no one seems to be able to answer is what can the West do about it. Central and Eastern European states including Ukraine and Poland, however, have been aware of the threat for years. Nina Jankowicz has advised these governments on the front lines of the information war. The lessons she learnt from that fight and from her attempts to get US congress to act make for essential reading. How to Lose the Information War takes the reader on a journey through five Western governments' responses to Russian information warfare tactics, all of which have failed. She
