Inclusive Learning 365 Christopher R. Bugaj, Karen Janowski, Mike Marotta, Beth Poss, 2021 Educators across the world are working to design individualized instruction that empowers every student to become experts at learning Technology and instructional interventions designed to support students with disabilities often eventually become mainstream and used by the masses These practices provide a pathway for designing inclusive equitable and accessible educational experiences that meet the needs of every individual learner This engaging book includes daily strategies accompanied by examples of tools that can be implemented immediately to design meaningful instruction Topics covered include role playing games for social emotional learning building literacy through captioned video coding to teach early literacy text to speech for math and reading and much more The heart of the book is the shift in mindset that occurs by exploring a different practical inclusive strategy each day and infusing these strategies into everyday practice

Path to Singularity J. Craig Wheeler, 2024-11-19 In a rapidly changing world are we on the brink of creating technology that outpaces our ability to control it Astrophysicist J Craig Wheeler former president of the American Astronomical Society takes a critical look at the technological advances shaping our future From artificial intelligence to genetic engineering Wheeler explores how these innovations are interconnected and the potential they hold for humanity s evolution He warns of a future where autonomous machines outsmart us and genetic modifications challenge our very essence With thought provoking insights into the ethical dilemmas we face Wheeler stresses the importance of staying informed and proactive Key Questions Raised by Wheeler Will there be jobs for those willing to work in a future dominated by automation How might social media companies manipulate our decisions potentially stripping us of free will Could AI influence or even dictate our voting behaviors If widespread mental connectivity becomes a reality could we see the emergence of a collective consciousness that erases individuality Have we exhausted Earth s resources and is population control necessary What implications arise if we solve aging How will society adapt to the challenges of perpetual youth What are the realistic prospects of migrating to space as Earth becomes increasingly inhospitable Our decisions today will determine if we control technology or if it controls us Through an engaging narrative Wheeler not only outlines the challenges but also offers practical advice on how we can retain control over our technological destiny Includes a Foreword by Neil DeGrasse Tyson
