Being at Work Mark Cole, 2025-11-18 This thought provoking and ground breaking book offers a way for us all to consider our experience of being at work and of the nature of working life Written in an engaging and accessible style it presents the practical means by which to apply central features of existentialism to make sense of how we relate to work and the workplace These include topics such as freedom and choice looking for purpose and making meaning and authenticity We spend a great deal of time at work and being at work is often a challenge Reference to the past in a corporate context tends to see it as a graveyard for errors and failures the future is something articulated by senior leaders and the place to which we are expected to travel in terms of their definition The specious present is the place where we experience our being in the moment the location where we do our work but it is rarely acknowledged in the places where we work This book offers new insights into how we can all meaningfully live our lives in the context of the world of work To do this it offers a personalised understanding of the existentialist way of philosophising It looks to simplify complex concepts in order to offer the reader a different way of thinking about the time that they spend at work and how they might consider different and more positive ways of being in such an environment It recognises that we spend a considerable amount of our life in the workplace and so argues that we need to consider that and find ways in which to make that experience personally meaningful Where other practices designed to help people to make sense of their actual experience are introspective existentialism is reflexive and active Similarly where those other approaches are deeply individualistic existentialism constantly reminds us that our choices are undertaken in relation to others and that they have a collective implication Whether you are keen to make sense of your experience of workplace and what it means to be a human being in that context or looking to explore how you embrace the challenges of being a leader in business this book will offer you rich perspectives for sense making and ways of rethinking your presence at work

Rock • Paper • Pixels Patrick Aievoli, 2025-01-20 The purpose of this book is to avail faculty and students of the many different innovations events effects and back stories equated with the advent of this new era of communications and its impact on our world At our core we are a species that needs to communicate and to find a way to properly represent those messages Since the beginning of recorded history mankind has always attempted to communicate and to keep track of its endeavors and accomplishments Now by using interaction design and modern digital media it has

become possible to present our story through many current and evocative platforms As each generation comes of age this new method is being utilized in all areas of their communication choices These new generations desire their communication at a different rate than its predecessors They want their information Internet ready and interactive They are involved in the immediate and that choice is not going away Interactive media is here to stay and has new rules and new effects It is changing our economies our societies and especially us as individuals The main goal of this book is to help you see how it started where it is going and how to be on the right side of this transformation How to take your first steps in that new direction and how to understand the effects of this new form of communication while being aware of its abilities and its dangers As a friend once said no matter how thin you slice it there are always two sides *Collier's* ,1911 *The Saturday Evening Post* ,1918 *Advertising & Selling* ,1921 Artificial Neural Nets and Genetic Algorithms Vera Kurkova,Nigel C. Steele,Roman Neruda,Miroslav Karny,2013-11-11 The first ICANNGA conference devoted to biologically inspired computational paradigms Neural Net works and Genetic Algorithms was held in Innsbruck Austria in 1993 The meeting attracted researchers from all over Europe and further afield who decided that this particular blend of topics should form a theme for a series of biennial conferences The second meeting held in Ales France in 1995 carried on the tradition set in Innsbruck of a relaxed and stimulating environment for the exchange of ideas The series has continued in Norwich UK in 1997 and Portoroz Slovenia in 1999 The Institute of Computer Science Czech Academy of Sciences is pleased to host the fifth conference in Prague We have chosen the Liechtenstein palace under the Prague Castle as the conference site to enhance the traditionally good atmosphere of the meeting There is an inspirational genius loci of the historical center of the city where four hundred years ago a fruitful combination of theoretical and empirical method through the collaboration of Johannes Kepler and Tycho de Brahe led to the discovery of the laws of planetary orbits *The New Farm* ,1986 **PC Magazine** ,2004 Athenaeum and Literary Chronicle ,1870 *Words on Cassette* ,2000 **The Literary Digest** ,1918 **Robotics Age** ,1984 **Literary Digest: a Repository of Contemporaneous Thought and Research as Presented in the Periodical Literature of the World** Edward Jewitt Wheeler,Isaac Kaufman Funk,William Seaver Woods,1918 *Flying* ,1945 **Books In Print 2004-2005** Ed Bowker Staff,Staff Bowker, Ed,2004 **Documentation Abstracts** ,1993
