The Commitment Engine Making Work Worth It:

The Commitment Engine John Jantsch, 2012-10-11 Why are some companies able to generate committed long term customers while others struggle to stay afloat Why do the employees of some organizations fully dedicate themselves while others punch the clock without enthusiasm By studying the ins and outs of companies that enjoy extraordinary loyalty from customers and employees John Jantsch reveals the systematic path to discovering and generating genuine commitment Jantsch's approach is built on three foundational planks which he calls the clarity path the culture patron and the customer promise He draws on his own experiences and shares true stories from businesses like Threadless Evernote and Warby Parker His strategies include these Build your company around a purpose People commit to companies and stories that have a simple straightforward purpose Understand that culture equals brand Build your business as a brand that employees and customers will support Lead by telling great stories You can't attract the right people or get them to commit without telling a story about why you do what you do Treat your staff as your customer A healthy customer community is the natural result of a healthy internal culture Serve customers you respect It's hard to have an authentic relationship with people you don't know like or trust As Jantsch says Have you ever encountered a business where everything felt effortless The experience was perfect and the products people and brand worked together gracefully You made an odd request it was greeted with a smile You went to try a new feature it was right where it should be You walked in sat down and felt right at home Businesses that run so smoothly as to seem self managed aren't normal In fact they are terribly counterintuitive but terribly simple as it turns out As a follow up to The Referral Engine this is about more than just establishing leads it's about building a fully alive business that attracts customers for life

Duct Tape Selling John Jantsch, 2014-05-15 Many of the areas that salespeople struggle with these days have long been the domain of marketers according to bestselling author John Jantsch The traditional business model dictates that marketers own the message while sellers own the relationships But now Jantsch flips the usual sales approach on its head It's no longer enough to view a salesperson's job as closing Today's superstars must attract teach convert serve and measure while developing a personal brand that stands for trust and expertise In Duct Tape Selling Jantsch shows how to tackle a changing sales environment whether you're an individual or charged with leading a sales team You will learn to think like a marketer as you Create an expert platform Become an authority in your field Mine networks to create critical relationships within your company and among your clients Build and utilize your Sales Hourglass Finish the sale and stay connected Make referrals an automatic part of your process As Jantsch writes Most people already know that the days of knocking on doors and hard selling are over But as I travel around the world speaking to groups of business owners marketers and sales professionals the number one question I'm asked is What do we do now I've written this book specifically to answer that question At the heart of it marketing and sales have become activities that no longer simply support each other so much as feed off of each other's activity Sales professionals must think and act like marketers in order
