Training, 2009 The Rooms Chronicle, 2008 **Market Watch**, 1981 *The First Black President* Johnny Bernard Hill, 2009-10-15 The First Black President is a critical and passionate reflection on the political and historical

implications of an Obama administration concerning the issue of race in America Obama's rise to political power has forever changed the contours of race relations in the country as many hail the new age of a post racial society Yet an Obama presidency could further complicate real racial progress and could set race relations back in the country for decades to come if not viewed in the proper context The book demonstrates that the Obama presidency must be celebrated as a historical triumph based on America's racist past but also the struggle for equality justice and freedom must also intensify with recognition of its global consequences The problem of race in America no longer just affects American citizens but impacts cultures around the globe The book speaks to both optimists and pessimists alike who are struggling to understand how race factors into the domestic and international policy agenda of Obama who now sits in the highest seat of political and global power

Does the Development of Cognitive Dissonance Inhibit the Success of Influencer Marketing?, 2021-09-15 Master's Thesis from the year 2020 in the subject Business economics Offline Marketing and Online Marketing grade 1.3 language English abstract The present master's thesis addresses the subject of the development of cognitive dissonance and its potential inhibitory effects on the success of influencer marketing The focus lies on the one hand on the investigation of the topic on the foundation of a theoretical literature analysis of meaningful theories as well on the other hand on the execution of an empirical study The theoretical investigation of the topic is carried out in the introductory chapter Identification and Initial Review of Key Literature on the basis of literature and applied practical examples The empirical investigation is based on the research question Which effect do cognitive dissonances have on the purchase of products advertised by influencers and the hypothesis Consumers tend to possess unconscious automated attitudes in the arrangement of bias or stereotypes towards influencer marketing In order to investigate these an implicit association test with pictorial and literal stimuli to the categories influencer and classic advertising figure was created In this study 59 persons participated as valid test participants The central results of the research show that both explicit and implicit attitudes towards influencers and their form of marketing exist Cognitive dissonances resulting from this are very likely though an actual slowing down of these attitudes on the purchasing process of products advertised by influencers cannot be confirmed fully Since the proven implicit attitudes only show a medium IAT effect a retardation of the purchase decision can be assumed However as current figures from influencer marketing indicate a final inhibition cannot be assumed in total
