A.I. in 2020 Jair Ribeiro, 2021-01-05 This book collects the best articles about several artificial intelligence concepts that I have published online during 2020 It is dedicated to anyone interested in Artificial Intelligence and anyone who wants to understand some of the building blocks that form this fascinating technology Here you will find my best articles updated and revisited with some more insights with a suitable format for book readers The content of this book results from extensive research long nights of studies and some of my best years of work in the field in some prestigious enterprise companies in Europe My goal is to share as much as possible through an affordable simple and straightforward language valuable knowledge that helps you understanding complex topics related to technologies such as Machine Learning Deep Learning Analytics and Autonomous Vehicles among others It is a satisfying adventure I must say Every day I receive considerably positive feedback lots of article views lots of likes retweets and more on my social networks and not less some indications as a top writer invitations to collaborate in some prestigious online publications All this is truly motivating I believe that life is complicated enough so I consider that every time someone tries to simplify concepts and knowledge useful to humanity this can be regarded as an essential contribution to inclusiveness and equity in the world So this is my mission This book is not intended to exhaust all the learning needs of those wishing to enter the AI world It is a starting point composed of some scattered notes that will help you put together some valuable pieces of technology s great mosaic The articles presented here are very beneficial to provide you a practical introduction to some of the most important concepts that many of us face daily They also will give you some pointers on how to go beyond the first step in search of much more Just as Dante suggested You were not meant to live as ugly but to seek virtue and knowledge

Getting Skills Right Training Supply for the Green and AI Transitions Equipping Workers with the Right Skills OECD, 2024-12-11 Adult learning systems are being called upon to prepare workers for major labour market shifts including the green transition and the rise of artificial intelligence AI in the workplace While initial education is important upskilling and reskilling the existing workforce is essential to help individuals and businesses adapt and prepare for these transitions Policy makers face the challenge of ensuring training is both relevant and inclusive yet there is limited understanding of whether current training supply is sufficient to meet current and future skill needs Most research focuses on the demand for skills with little insight into the supply To fill this gap this report uses evidence from new OECD questionnaires and an analysis of training catalogues to evaluate whether current training supply aligns with the skills needed for the green and AI transitions It also provides insight into the accessibility and flexibility of training efforts to guide policy makers in their efforts to develop more effective inclusive training strategies
