Empower yourself with proven job search strategies resume advice and interview techniques tailored for remote roles
Covering both entry level and specialist positions this essential remote work guide is SEO optimized to help job seekers
freelancers and entrepreneurs secure remote employment in today s digital economy Start your journey to freedom flexibility
and a lucrative remote career today After the Pandemic Randy Whitaker,2022-10-10 Many things define a job seeker
experience education first impressions connections passion and the value you might bring to the company you wish to work
for For decades the perceived ideal candidate would have all of the above most of the above however a good candidate would
have a four year college degree To a great extent an employer still would like someone with a four year college degree
However I believe this is changing The need for those who work with their hands and those who are willing to work their way
up through the various levels of an organization is becoming more and more desired by companies The time it will take you
to earn your degree you could be making a nice living and will have accrued zero debt in the process Plus after working in an
industry of your choice something you do have an interest in even a passion for you may be on equal footing with a newly
hired college grad based on the four years you have been working in your industry of choice as you continue to work your
way up through the company You will find the more value you bring to a company the more they will look to you to assume
great responsibility Typically the more responsibility the greater the paycheck What makes this book timely is the fact as
COVID 19 winds down we are seeing many labor shortages in many areas and industries Now is the absolute best time to go
to an industry experiencing a labor shortage or enter one of the numerous industries researched in this book and get yourself
the job you always wanted without the cost and time involved with getting a four year college education I have nothing
against getting a degree and there are still many fields where they will always be mandatory however the trades service
industries government railroads law enforcement plus many others will welcome you with open arms without the need for a
four year degree I hope this book helps **Human Resources Report** ,2006-07 *Top 300 Careers* ,2008 Explore
