This book presents the views, opinions, and reality of remote work and creating an appropriate internal marketing culture in a remote environment. The key topics explored are the significance of remote work, remote work practice, reshaping the work environment, designing remote work models, remote work challenges, remote work facing business organizations, remote work management innovations and technology, the role of motivation and satisfaction in organizational development, employee empowerment in a remote setting, transparency and commitment for sustainable development, and the future of remote work. Building the High-Performance Finance Function de Waal, André, Bilstra, Eelco, Bootsman, Jacques, 2022-02-11 The finance function can be regarded as the spider in the organizational web as it has relations with every part of the organization and is also represented on the executive board. Therefore, it is of utmost importance that this function takes the lead by quickly transforming itself into a high performance finance function (HPFF) serving as a role model for other functions in the organization. Building the High Performance Finance Function describes the development of the high performance finance function (HPFF) framework and explores the experiences, lessons learned, and results achieved by finance functions that have transformed themselves into HPFFs or high performance finance functions using the HPFF framework. Covering a range of topics such as excellence in finance and high performance organizations, it is ideal for industry professionals, teachers, researchers, academicians, practitioners, and students.
