Training in

Interpersonal Skills Stephen P. Robbins, Phillip L. Hunsaker, 2003 Artist and screen writer Brian Godawa used to revel in his ability to argue the truth of the gospel often crushing his opponents in the process In time however he began to realize that winning an argument about the logic of Christianity did not equal persuading people to follow Jesus What was missing Through prayer and searching the Scriptures Godawa realized that while God cares deeply for rationality propositional truths were not the only or even the primary tools he used to reach people with his Truth In fact Godawa discovered that story metaphor and imagery were central to God s communication style because they could go places reason could never go into the heart In his refreshing and challenging book Godawa helps you break free from the spiritual suffocation of heady faith Without negating the importance of reason and doctrine Godawa challenges you to move from understanding the Bible literally to literarily by exploring the poetry parables and metaphors found in God s Word Weaving historical insight pop culture and personal narrative throughout Godawa reveals the importance God places on imagination and creativity in the Scriptures and provides a biblical foundation for Christians to pursue image beauty wonder and mystery in their faith For any Christian who wants to learn how to communicate and defend the Gospel in a postmodern context this book will help you find a path between the two extremes of intellectualized faith and anti intellectual faith by recovering a biblical balance between intellect and imagination **Guide to Business Gaming and Experiential Learning** James W. Gentry, 1990 Learning Styles and Learning Ronald R. Sims, Serbrenia J. Sims, 2006 It is the intent of this book to contribute to the ongoing dialogue on the important relationship of identifying an individual s learning style and the implications of how providing appropriate instruction in response to that and other styles can contribute to more effective learning and performance as mandated by calls for increased accountability and measures of learner learning success p xiii Organizational Behavior , 2007
