Populism Merle A. Williams, 2022-03-16 The rapid global spread of populism has become an arresting and often disturbing phenomenon in the opening decades of the twenty-first century. This collection of essays explores the complex histories and diverse geographies of populist activity, examining its manifestations on both the political left and the right while tracing its dangerous association with nativism, racism, and xenophobia. Established socio-political theories are questioned and challenged, giving way to fresh philosophical or cultural perspectives. At the heart of this collection lies a concern with the capacity of the humanities and especially literary studies to interpret, evaluate, and intervene in this populist moment. Literary discussion ranges from Henry James and William Faulkner to Toni Morrison, David Foster Wallace, Ali Smith, and Ta-Nehisi Coates. These essays demonstrate the pertinence and value of enquiries from multiple perspectives if we are to come to terms with the impact of populist rhetoric on meaning and truth as proliferating misinformation unmoors conceptual and ethical coherence. The chapters in this book were originally published in *Safundi: The Journal of South African and American Studies* and *English Studies in Africa*. **Soul School** Amber O'Neal Johnston, 2025-01-28 A must-have addition to the shelf for any parent hoping to introduce more inclusive books into the home with 100 essential titles for early readers through high school.

Brimming with the history and culture of Black America, this one-of-a-kind resource is delivered in a package that all children find irresistible. Stories, education expert Amber O'Neal Johnston, who homeschools her four children, offers masterfully curated booklists sorted by age for diving into the fullness of the African American cultural experience. **Soul School** books are must-have mirrors for Black children and priceless windows for others, but first and foremost, they're captivating stories. And while they're sure to hold a special place in the hearts of Black families, they are unequivocally and without hesitation for all children. In addition to the booklists, Johnston artfully weaves together knowledge of the past and awareness of the present by examining cultural values, historical highlights, and the power of storytelling while teaching families what to look for and how to enjoy prose, verse, and illustrations that celebrate Black American culture. **Soul School** offers the best children's middle

The Atlantic Monthly, 2008 The Message Ta-Nehisi Coates, 2024-10-01 1 NATIONAL BESTSELLER NEW YORK TIMES BESTSELLER The renowned author of Between the World and Me journeys to three resonant sites of conflict to explore how the stories we tell and the ones we don t shape our realities Ta Nehisi Coates always writes with a purpose These pilgrimages for him help ground his powerful writing about race Associated Press Coates exhorts readers including students parents educators and journalists to challenge conventional narratives that can be used to justify ethnic cleansing or camouflage racist policing Brilliant and timely Booklist starred review Ta Nehisi Coates originally set out to write a book about writing in the tradition of Orwell s classic Politics and the English Language but found himself grappling with deeper questions about how our stories our reporting and imaginative narratives and mythmaking expose and distort our realities In the first of the book s three intertwining essays Coates on his first trip to Africa finds himself in two places at once in Dakar a modern city in Senegal and in a mythic kingdom in his mind Then he takes readers along with him to Columbia South Carolina where he reports on his own book s banning but also explores the larger backlash to the nation s recent reckoning with history and the deeply rooted American mythology so visible in that city a capital of the Confederacy with statues of segregationists looming over its public squares Finally in the book s longest section Coates travels to Palestine where he sees with devastating clarity how easily we are misled by nationalist narratives and the tragedy that lies in the clash between the stories we tell and the reality of life on the ground Written at a dramatic moment in American and global life this work from one of the country s most important writers is about the urgent need to untangle ourselves from the

destructive myths that shape our world and our own souls and embrace the liberating power of even the most difficult truths
