Basic Quantitative Analysis Using Excel To Analyze Your Data

**David P. Dolowitz, Steve
Buckler, Fionnghuala Sweeney**

Basic Quantitative Analysis Using Excel To Analyze Your Data:

Doing Ethnographic Research Kimberly Kirner, Jan Mills, SAGE Publications, Inc., 2019-09-05 This workbook is loaded with exercises how to sections and checklists all designed to serve as a supplemental support for students to apply the principles and concepts learned from the textbook it accompanies With instructions and explanations written in a conversational style it will help the student understand why the assignments are being used why the skills they are developing are relevant and how the exercises relate to the textbook content

Criminological Research for Beginners

Laura Caulfield, Jane Hill, 2014-04-03 Criminological Research for Beginners is a comprehensive and engaging guide to research methods in Criminology Written specifically for undergraduate students and novice researchers this book has been designed as a practical guide to planning conducting and reporting research in the subject By first inviting readers to consider the importance of criminological research the book places related methodology firmly in the context of students broader study of Criminology before moving on to provide a detailed guide to the practical processes of research It is common for Criminology undergraduates to feel intimidated at the prospect of conducting their own research and these students typically struggle to see the relevance of research methods to their own studies This book speaks directly to the needs of such students and includes contemporary examples and case studies that bring a topic that is often thought of as dry to life providing a thorough and accessible practical guide that students can return to at each stage of their research all the way through to their dissertation This book covers an examination of the theoretical political and ethical debates in criminological research a complete guide to planning criminological research assisting student researchers in identifying their research questions choosing their research methods and critiquing the available literature guidance on the practicalities and processes of collecting data a discussion of the process of analysing data and writing up research Including an extensive glossary and an integrated companion website with extra examples exercises and videos to further develop students understanding this book is essential reading for any undergraduate on a Criminological Research Methods course or for anyone in need of practical guidance on any or every of the various stages involved in conducting thorough and effective criminological research

Making Shift Happen Nya Van Leuvan, Lauren Highleyman, Rod Fujita, Ashleigh

Kellerman, 2022-01-11 Nautilus Book Award Winner An engagingly written behavioral science based guide to tackling our urgent environmental problems Robert B Cialdini author of *Influence The Psychology of Persuasion* To create a sustainable future and achieve positive durable change we must design solutions based directly on how people think make decisions and act From hotels that save water and money using simple signage to energy suppliers that boost participation in renewable energy programs through mere enrollment form tweaks it s clear that shifting the behavior of millions for the better is possible Based on decades of research into what drives behavior change *Making Shift Happen* provides a suite of powerful tools to transform the world It features A to Z guidance on how to design a behavior change initiative from choosing the right

audience and uncovering what drives their behavior to designing prototyping testing and implementation Clear instructions and real world examples empower you to apply hundreds of behavioral science solutions including Using social norms to spread positive environmental behaviors Selecting and testing stories metaphors and values to frame information for each audience Catalyzing action by aligning your initiative with your audience s personal and social motivators Breaking bad habits and building positive ones Capturing your audience s attention and reducing barriers to action Connecting people with nature and building empathy for the environment and its inhabitants Making Shift Happen is a must have guide for practitioners in non profits governments and businesses looking to design successful campaigns and initiatives that shift behaviors and mindsets toward positive environmental outcomes and a better future for all Completely fascinating we ve learned a lot about the ways minds work in the last decades and that may help us figure out how to appeal to our better angels more effectively than in the past Rest assured that people who want to sell us junk are paying attention to these insights the rest of us better do so too Bill McKibben author of The End of Nature

Criminological Skills and Research for Beginners Laura Caulfield,Jane Hill,2018-04-19 Criminological Skills and Research for Beginners is a comprehensive and engaging guide to research methods in Criminology and the skills required for academic success Written specifically for undergraduate students and novice researchers this book has been designed as a lively and accessible guide to planning conducting and reporting research in the subject It emphasises practical skills required in studying Criminology the importance of criminological research and places related methodology firmly in the context of students broader study of the discipline before moving on to provide a detailed guide to the actual processes of research It is common for Criminology undergraduates to feel intimidated at the prospect of conducting their own research and these students typically struggle to see the relevance of research methods to their own studies This book speaks directly to the needs of such students and includes contemporary examples and case studies that bring a topic that is often thought of as dry to life providing a thorough and accessible practical guide that students can return to at each stage of their research all the way through to their dissertation This book covers an examination of the theoretical political and ethical debates in criminological research a complete guide to planning criminological research assisting student researchers in identifying their research questions choosing their research methods and critiquing the available literature guidance on the practicalities and processes of collecting data a discussion of the process of analysing data and writing up research New to the second edition is a brand new section on research skills in Criminology including detailed coverage of writing skills referencing dissertations and research reports presentation skills and revision The book also offers additional coverage of the politics of criminological research and the presentation of official crime statistics Including an extensive glossary and an integrated companion website with extra examples exercises and videos to further develop students understanding this book is essential reading for any undergraduate on a Criminological Research Methods or Research Skills course or for anyone in need of practical

guidance on any or all of the various stages involved in conducting thorough and effective criminological research

Information Basics for College Students Karen Sobel, 2012-04-17 Librarians have long looked for a single comprehensive text to provide a solid introduction to the art and craft of instruction. With this book now they have it. *Information Basics for College Students* provides critical information and knowledge relevant to library instructors both for those just starting out in the field as well as experienced and seasoned pros all in a single volume. It approaches topics directly relevant to instruction such as preparation, assessment, teaching techniques, and communication with academic faculty. It also provides invaluable guidance for new instructors in developing personal processes by which they can continue learning such as strategies for evaluating new classroom technologies and recommended national organizations for library instructors. The book also details the various roles that library instructors can play in campus planning and governance activities that can be instrumental to career growth and advancement. *Information Basics for College Students* is essential reading for academic library instructors as well as those who are training to provide academic library instruction. Academic faculty and teachers interested in development of research skills at the college level will also benefit from selected sections of this book. *Instructor's Edition for Basics of Social Research, 2nd* Earl R. Babbie, 2001-07-01

The Basics of Social Research Earl R. Babbie, 2008 This thorough revision of Babbie's standard setting book presents a succinct, straightforward introduction to the field of research methods as practiced by social scientists. Contemporary examples such as terrorism, Alzheimer's disease, anti-gay prejudice, and education, and the legalization of marijuana make this Fourth Edition thoroughly fascinating as it introduces you to the how-tos and whys of social research methods. The book's new qualitative coverage combined with its already strong quantitative material makes this new edition Babbie's best yet. Babbie, long respected in the field and renowned for his engaging and friendly writing style, gives you the tools you need for understanding social research methods and for applying these concepts both inside and outside the classroom as a researcher and as a consumer of research. With a strong emphasis on ethics and additional qualitative material, this Fourth Edition is authoritative yet student-friendly and engaging enough to help you connect the dots between the world of social research and the real world. **Using Computers in Educational**

and Psychological Research Jerry Willis, Seung Kim, 2006 *Language* George Melville Bolling, Bernard Bloch, 2010

The Operator's Manual for the New Administration Mark A. Abramson, 2008-07-07 The Operator's Manual for the New Administration explains how government works and how to make it work to advance policy goals and objectives. Bringing decades of experience in government administration, the authors have identified eight key tools: leadership, performance, people, money, contracting, technology, innovation, and collaboration that executives must utilize in order to be successful.

Researching Online David P. Dolowitz, Steve Buckler, Fionnghuala Sweeney, 2008-05-14 Providing a learning resource for those undertaking research for a dissertation, this skills-based text provides instruction and guidance on conducting research online with empirical and qualitative bases. **Using Benchmarking, Needs Assessment, Quality**

Improvement, Outcome Measurement, and Library Standards Rosalind F. Dudden, 2007 This work provides easy to follow advice for using the latest management tools Evaluation tools are an essential part of improving service and proving the library's value
