C. Heredia, 2014-01-01

This book is the outcome of the national seminar Goa 2011 Reviewing and Recovering 50 years organised on the occasion of the golden jubilee of Goa's liberation from Portuguese rule. The seminar intended as the first of a series of multi disciplinary seminars on Goan themes and issues was convened by the Xavier Centre of Historical Research XCHR and the Thomas Stephens Konknni Kendr TSKK to begin a process of self education and knowledge creation to comprehend how the people of this state have shaped and directed their post colonial history and how specific socio political and cultural contexts have influenced that contemporary history. The book underlines the rapid and at times traumatic social changes Goan Society is undergoing today. Whether it be in regard to the construction of their past or the preservation of their culture including that of the subalterns and the marginalized whether in controversies over their collective identity as Goans expressed in their language or their politics whether in relation to the land and its commodification by the market or its objectification with unsustainable development whether in the search for a relevant education or the struggles of civil society movements everywhere there is evidence of the complex and multiple impact of rapid change at various levels. What surely is the need of the hour is now to find a horizon of hope within which to understand our world so as to be able to change it as subjects rather than just coping with it as objects of our own history. The Informal Constitution Abhinav Chandrachud, 2020-11-30

Enacted for historical reasons on 26 January 1950 the Constitution of India provided that the Supreme Court of India situated in New Delhi was to have one Chief Justice of India and not more than seven judges. Today the Court has 33 judges in addition to the Chief Justice of India. But who are these judges and where did they come from? Its central thesis is that despite all established formal constitutional requirements there are three informal criteria which are used for appointing judges to the Supreme Court: age seniority and diversity. The author examines debates surrounding the Indian judicial system since the institution of the federal court during the British Raj. This leads to a study of the political developments that resulted in the present collegium system of appointing judges to the Supreme Court of India. Based on more than two dozen interviews personally conducted by the author with former judges of the Supreme Court of India this book uniquely brings to the fore the unwritten criteria that have determined the selection of judges to the highest court of law in this country for over six decades. **God Save the Hon'ble Supreme Court** Fali S.
