Campbell, 2023-12-19 Automated Journalism at the Intersection of Politics and Black Culture The Battle Against Digital Hegemony explores the unintentional inequities that erupt when AI assistance meets news media Colin Campbell argues that while AI newswriting can streamline news production it can also exacerbate racist discrimination and perpetuate harmful stereotypes Combining empirical research and personal experience Campbell urgently argues for the necessity of ensuring that AI produced media is mindful of Black Brown and minority experiences as well as traditional journalistic concerns such as bias and accuracy Media scholars will find this book especially salient *Drawing Futures* Bob Sheil, Frédéric Migayrou, Luke Pearson, Laura Allen, 2016-11-11

Drawing Futures brings together international designers and artists for speculations in contemporary drawing for art and architecture Despite numerous developments in technological manufacture and computational design that provide new grounds for designers the act of drawing still plays a central role as a vehicle for speculation There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world In

reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation Drawing Futures will present a compendium of projects writings and interviews that critically reassess the act of drawing and where its future may lie Drawing Futures focuses on the discussion of how the field of drawing may expand synchronously alongside technological and computational developments The book coincides with an international conference of the same name taking place at The Bartlett School of Architecture UCL in November 2016 Bringing together practitioners from many creative fields the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas
