Building Social Equity with AI Raghu Banda, 2024-08-23 Did you ever think that the way you interact with other human beings, entities and organizations can be measured for building a harmonious society? In this age of user verification and user validation, AI will fine-tune these interactions and transactions to build a socially equitable world. This book reveals that social equity is not only what you get from society but also what you give to it. You'll explore the concepts and intricacies of this mutually built phenomenon. The book then focuses on creating social equity awareness and details how AI can help in the process. Regular enterprises, consumer-oriented companies and social media companies all capture data in regular interactions and use this information in various ways. You'll learn how this information is being leveraged and explore how social equity can thrive when all this information is analyzed and measured. *Building Social Equity with AI* highlights the subtle nuances of social equity and how AI can create more awareness towards it, thus improving your business or organization. What You'll Learn: Understand how social equity affects all business and industry professionals. Build social equity into a changing world. See how AI and GenAI stand out as transformative forces. Integrate social equity into network structures. Address equality and equity in the context of people, processes and technology. Work with AI to improve social equity scores. Who This Book Is For: Small, medium business owners and users, consultants, education specialists, career coaches, data engineers and social workers who want to leverage AI to gain social equity for either their business or personal life.
