The Artificial Intelligence Chatbot Lon Safko, 2019-05-30 Can you tell the difference between chatting with a human or chatting with a robot? I will bet you can't. Artificial Intelligence Chatbots have surpassed the Turing Test and are interfacing with us everyday. Did you know more people will chat with a bot nearly 1,000 more often than to use your Contact form? Did you know how a chatbot can identify your prospects by psychological profiles and give them what they need to close the sale? Are you aware that chatbots can help you find errors in your web site, making your web site 100% more sticky and answer your prospects' questions that immediately leads to a sale? Let me show you how an AI Chatbot will encourage your customers to tell you how to sell to them and increase your revenue up to 30%. Along with my background in AI, I recently studied more than 2,000 AI Chatbot conversations with 22,000 interactions and discovered dozens of completely unexpected positive consequences of having an AI chatbot assisting your customers on your web site. Read how easy it is to install and customize your very own AI Chatbot and see the positive effects for yourself.
