*Exploring Youth Studies in the Age of AI* Zareemohzzabieh, Zeinab, Abdullah, Rusli, Ahrari, Seyedali, 2024-07-24

In an era defined by the relentless march of technology, the seamless integration of Artificial Intelligence (AI) into our daily lives has ushered in a transformative landscape. At the forefront of this evolution are the Digital Natives of Generation AI, navigating the complexities of a digital world where algorithms are integral to their daily experiences. This juncture presents a dual influence marked by the continuous progression of technological advancements and the dynamic ways the youngest members of our society engage with and adapt to the digital environment. As we stand at the crossroads of youth studies and AI, there arises a pressing need to comprehend the profound impact of this convergence on the future leaders of our world. Addressing this imperative, *Exploring Youth Studies in the Age of AI* emerges as a comprehensive solution to unravel the complexities and opportunities within this evolving landscape. This book, meticulously crafted for academics, researchers, educators, policymakers, and technology ethicists, serves as a guiding beacon in understanding how AI shapes the experiences of today's youth and, in turn, how youth culture influences the development and application of AI technologies. With a collection of enlightening chapters covering topics from Data-Driven Pedagogies to Ethical AI, Guiding Principles for Youth-Centric Development, the book delves deep into the diverse dimensions of this intersection, providing actionable insights and fostering a nuanced understanding for those invested in the ethical, social, and educational implications of AI within the context of youth.

Virtual Production Mark Sawicki, Juniko Moody, 2025-06-30

This book, written by industry experts, provides a comprehensive understanding of virtual production processes, concepts, and technology, helping readers get to grips with this nascent technology. Topics covered include the history of virtual production, underlying technologies, creative potential, and production workflows. In addition, it delivers a detailed overview of the virtual production pipeline, from pre-production planning to post-production finishing. Each chapter explains specific aspects of virtual production, such as real-time rendering, motion capture, virtual cameras, LED screens, game engines, and collaborative workflows. Additionally, the book examines virtual production's ethical and cultural implications, including the impact on actors, the representation of diverse voices, and the democratization of filmmaking. Whether you're a student, teacher, or industry professional, *Virtual Production*

will provide you with a solid foundation for comprehending the fundamental concepts behind a constantly evolving and intricate process

**Building a God** Christopher DiCarlo, 2025-01-21 Renowned ethicist provides essential guide to successfully navigating the future AI landscape In *Building a God* Christopher DiCarlo explores the profound implications of artificial intelligence surpassing human intelligence a destiny that seems not just possible but inevitable At this critical crossroad in our evolutionary history DiCarlo a renowned ethicist in AI delves into the ethical mazes and technological quandaries of our future interactions with superior AI entities From healthcare enhancements to the risks of digital manipulation this book scrutinizes AI's dual potential to elevate or devastate humanity DiCarlo advocates for robust global governance of AI proposing visionary policies to safeguard our society AI will positively impact our lives in myriad ways from healthcare to education manufacturing to sustainability AI powered tools will improve productivity and add ease to the most massive global industries and to our own personal daily routines alike But we have already witnessed the tip of the iceberg when it comes to the risks of this new technology AI algorithms can manipulate human behavior spread disinformation shape public opinion and impact democratic processes Sophisticated technologies such as GPT 4 Dall E 2 and video Deepfakes allow users to create distort and alter information Perhaps more troubling is the foundational lack of transparency in both the utilization and design of AI models What ethical precepts should be determined for AI and by whom And what will happen if rogue abusers decide not to comply with such ethical guidelines How should we enforce these precepts Should the UN develop a Charter or Accord which all member states agree to and sign off on Should governments develop a form of international regulative body similar to the International Atomic Energy Agency IAEA which regulates not only the use of nuclear energy but nuclear weaponry as well In this incisive and cogent meditation on the future of AI DiCarlo argues for the ethical governance of AI by identifying the key components obstacles and points of progress gained so far by the global community and by putting forth thoughtful and measured policies to regulate this dangerous technology
