The Routledge Handbook of Translation Technology and Society Stefan Baumgarten,Michael Tieber,2025-10-08 The Routledge Handbook of Translation Technology and Society offers the first comprehensive and critical exploration of translation technologies in the context of globalised multilingual societies within an increasingly AI dominated world This handbook calls for a fundamental rethinking of traditional approaches to translation examining the ethical ideological socioeconomic and environmental implications of digital tools and practices such as professional AI driven translation everyday machine translation crowdsourcing translation or platform based translation work It provides deep insights into pressing issues such as the commodification of language inclusivity in so called low resource languages data colonialism and labour exploitation By questioning conventional science narratives and advocating for sustainable inclusive and equitable applications of translation technologies this handbook empowers readers to engage critically with current trends and challenges in the digital age Readers will benefit from an interdisciplinary approach that combines novel theoretical foundations with empirical research and practical case studies It serves as a foundational reference and a springboard for critical future research in an evolving sociotechnical translation ecosystem where the blurring boundaries between human and machinic agents foster new modes of translator machine interaction This handbook is an essential resource for academics researchers and professionals in translation studies digital humanities science and technology studies or digital discourse studies Chapter 1 15 and introduction of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 International license

SESAC Transcriptions Library Service Program Guide SESAC, Inc,1945 *Centering Humanism in STEM Education* Bryan Dewsbury,Susannah McGowan,Sheila S. Jaswal ,Desiree Forsythe,2024-09-24 Research demonstrates that STEM disciplines perpetuate a history of exclusion particularly for students with marginalized identities This poses problems particularly when science permeates every aspect of contemporary American life Institutions repeated failures to disrupt systemic oppression in STEM has led to a mostly white cisgender and male scientific workforce replete with implicit and or explicit biases Education holds one pathway to disrupt systemic linkages of STEM oppression from society to the classroom Maintaining views on science as inherently objective isolates it from the world in which it is performed STEM education must move beyond the transactional approaches to transformative environments manifesting respect for students social and educational capital We must create a STEM environment in which students with marginalized identities feel respected listened to and valued We must assist students in understanding how
