It is intended for the language teacher who wishes to harness the potential of the writable Web in his or her language class, the teacher/trainer who promotes a social constructivist paradigm, and the educational software designer who seeks to create flexible educational tools which incorporate subversion. The accompanying CD Rom contains the entire corpus of blogs, warts and all, produced by project participants over 4,000 posts and 9,000 comments, as well as the educational blogging platform prototype developed for this project, which is an open source release under the GNU General Public License.
