Sullivan,2019-07-24 Whether we are watching TV surfing the Internet listening to our iPods or reading a novel we all engage with media as an audience Despite the widespread use of this term in our popular culture the meaning of audience is complex and it has undergone significant historical shifts as new forms of mediated communication have developed from print telegraphy and radio to film television and the Internet Media Audiences Effects Users Institutions and Power 2nd Edition explores the concept of media audiences from four broad perspectives as victims of mass media as market constructions and commodities as users of media and as producers and subcultures of mass media The goal of the text is for students to be able to think critically about the role and status of media audiences in contemporary society reflecting on their relative power in relation to institutional media producers The American Editor ,2005 *Judy, Or the London Serio-comic Journal* ,1877

**Postfeminism, Postrace and Digital Politics in Asian American Food Blogs** Tisha Dejmanee,2022-12-26 This book examines how Asian American women bloggers challenge dominant race and gender discourses through the practice of food blogging Asian American food blogs which situate recipes and food photography within the personal narratives and domestic spaces of Asian American women offer unique insights into the ways that hegemonic race and gender discourses are negotiated in quotidian life The genre s focus on food provides a particularly rich backdrop for this study as it necessarily implicates family histories gendered labour domestic spaces and the power dynamics of consumption These intimate digital texts therefore provide unique insights into the ways that postfeminist and postrace discourses are encountered in the individual s mundane experiences The author engages a critical cultural analysis of food blogs narratives images communities and platforms expressions of post race and feminism discourses are constrained by the commercial logics of this digital culture The author argues that while Asian American food blogs rarely present a sustained challenge to hegemonic identity representation the processes of reproduction and rupture that define this blogosphere consistently reveal the collective desire to push back against the limits of post identities This is a unique and fascinating study which is ideal reading for students and scholars of
