Cheap Ai Tools For Teachers Guide In 2025:

A Teacher's Guide to VITAL Collaboration Kevin Perks, 2025 This guide provides K 12 educators with a structured evidence driven approach to Professional Learning Communities PLCs offering powerful tools and facilitation techniques to enhance both teaching and professional growth Unlike typical approaches to data teams the VITAL Visibly Improving Teaching and Learning Collaboration model uses concrete evidence from teacher practice and student learning to establish clear goals and pathways for equitable instructional improvement It facilitates visible growth in both teachers and students by examining artifacts such as lessons classroom observations student work and assessment data The comprehensive framework integrates insights from research on teacher efficacy improvement science professional learning communities and lesson study to optimize collaborative efforts Teachers and school leaders will find practical strategies protocols and facilitation guidance to foster a culture of continuous improvement within their PLCs Whether you are enhancing your instructional practices or guiding colleagues toward better outcomes this guide will help you maximize the impact of every PLC session This book is an excellent companion to Kevin Perks s A School Leader s Guide to VITAL Collaboration Book Features Evidence Driven Approach Departing from traditional models VITAL fosters a cyclical data informed process where concrete evidence from teaching and student learning drives goal setting and instructional improvement leading to measurable gains in both teaching quality and student achievement Comprehensive Framework Integrates diverse educational methodologies including school improvement science and lesson study into a cohesive framework providing educators with a robust toolkit of protocols to optimize PLCs and drive meaningful change Facilitation Guidance Offers practical strategies protocols and facilitation guidance that empower teachers and leaders to effectively lead and participate in PLCs fostering a culture of continuous improvement and professional growth Focus on Equity Prioritizes equitable student outcomes by ensuring that discussions and actions within PLCs are anchored in data driven insights and strategies that support every learner s success Practical Tools Provides educators with actionable tools such as protocols for reviewing data analyzing standards goal setting lesson tuning and evaluating student work enabling them to implement VITAL Collaboration principles immediately in their classrooms and schools

Proceedings of the 2025 11th International Conference on Humanities and Social Science Research (ICHSSR 2025) Bootheina Majoul, Abdullah Abdullah, Sharifah Faizah Syed Mohammed, Fonny Dameaty Hutagalung, 2025-08-10 This is an open access book Review ICHSSR was established in 2015 and the past five sessions have all been successfully published and indexed by CPCI we wholeheartedly welcome colleagues worldwide to join us at this momentous conference held in Beijing

"Free AI Tools for Teachers 2025 Deepak D, 2025-09-18 Teaching has always been about balance balancing lessons grading parent communication and the unique needs of every student However in 2025 maintaining that balance is more challenging than ever Teachers are stretched thin and the demands of modern classrooms can feel overwhelming That s where artificial intelligence AI comes in But let me be

clear this book isn't about replacing teachers with robots or adding more technology headaches to your plate. It's about introducing you to free, easy-to-use AI tools that can reduce your workload, spark creativity, and free up time for what matters: connecting with your students. When I started researching AI in education, I was amazed by how many powerful tools were available at no cost. Teachers were using them to draft lesson plans in minutes, generate practice quizzes, provide personalised feedback, and even keep their classrooms more organised. The more I explored, the clearer it became: every teacher deserves access to these tools, and most importantly, guidance on how to use them effectively.

Proceedings of the 5th International Conference on Internet, Education and Information Technology (IEIT 2025) Hemachandran Kannan, Ouahmiche Ghania, Intakhab Alam Khan, Abdul Samad bin Shibghatullah, 2025-09-01. This book is an open access. With the development of science and technology, information technology and information resources should be actively developed and fully applied in all fields of education and teaching to promote the modernization of education and cultivate talents to meet the needs of society. From the technical point of view, the basic characteristics of educational informatization are digitalization, networking, intelligentization, and multi-media. From the perspective of education, the basic characteristics of educational information are openness, sharing, interaction, and cooperation. With the advantage of the network, it can provide students with a large amount of information and knowledge by combining different knowledge and information from various aspects at a high frequency. Therefore, we have intensified efforts to reform the traditional teaching methods and set up a new teaching concept from the interaction between teachers and students in the past to the sharing between students. In short, it forms a sharing learning mode. For all students, strive to achieve students' learning independence, initiative, and creativity. To sum up, we will provide a quick exchange platform between education and information technology so that more scholars in related fields can share and exchange new ideas. The 5th International Conference on Internet Education and Information Technology (IEIT 2025) will be held on May 16-18, 2025, in Hangzhou, China. The IEIT 2025 is to bring together innovative academics and industrial experts in the field of Internet Education and Information Technology to a common forum. The primary goal of the conference is to promote research and developmental activities in Internet Education and Information Technology, and another goal is to promote scientific information interchange between researchers, developers, engineers, students, and practitioners working all around the world. The conference will be held every year to make it an ideal platform for people to share views and experiences in international conferences on Internet Education and Information Technology and related areas.
