Nolan Higdon,Allison Butler,2024-08-02 Surveillance Education explores the pervasive use of digital surveillance

technologies in schools and assesses its pernicious effects on students Recognizing that the use of digital technologies will persist the authors instead offer practical ways to ameliorate their impact In our era of surveillance capitalism digital media technologies are ever more intertwined into the educational process Schools are presented with digital technologies as tools of convenience for gathering and grading student work as tools of support to foster a more equitable learning environment and as tools of safety for predicting or preventing violence or monitoring mental emotional and physical health Despite a dearth of evidence to confirm their effectiveness digital data collection and tracking is often presented as a way to improve educational outcomes and safety This book challenges these fallacious assumptions and argues that the use of digital media technologies has caused great harm to students by subjecting them to oppressive levels of surveillance impinging upon their right to privacy and harvesting their personal data on behalf of Big Tech In doing so the authors draw upon interviews from K 12 and higher education students teachers and staff civil rights and technology lawyers and educational technological programmers The authors also provide practical guidance for teachers administrators students and their families seeking to identify and combat surveillance in education This urgent eye opening book will be of interest to students and educators with interests in critical media literacy and pedagogy and the sociology of technology and education *Advances in Information and Communication* Kohei Arai,2024-03-16 The book is a valuable collection of papers presented in the Future of Information and Communications Conference FICC conducted by Science and Information Organization on 4 5 April 2024 in Berlin It received a total of 401 paper submissions out of which 139 are published after careful double blind peer review Renowned and budding scholars academics and distinguished members of the industry assembled under one roof to share their breakthrough research providing answers to many complex problems boggling the world The topics fanned across various fields involving Communication Data Science Ambient Intelligence Networking Computing Security and Privacy **The AI Con** Emily M. Bender,Alex Hanna,2025-05-13 A smart incisive look at the technologies sold as artificial intelligence the drawbacks and pitfalls of technology sold under this banner and why it s crucial to recognize the many ways in which AI hype covers for a small set of power hungry actors at work and in the world Is artificial intelligence going to take over the world Have big tech scientists created an artificial lifeform that can think on its own Is it going to put authors artists and others out of business Are we about to enter an age where computers are better than humans at everything The answer to these questions linguist Emily M Bender and sociologist Alex Hanna make clear is no they wish LOL and definitely not This kind of thinking is a symptom of a phenomenon known as AI hype Hype looks and smells fishy It twists words and helps the rich get richer by justifying data theft motivating surveillance capitalism and devaluing human creativity in order to replace meaningful work with jobs that treat people like machines In *The AI Con* Bender and Hanna offer a sharp witty and wide ranging take down of AI hype across its many forms Bender and Hanna show you how to spot AI hype how to deconstruct it and how to expose the power grabs it aims to hide Armed with these tools you will be prepared to push back against AI hype

at work as a consumer in the marketplace as a skeptical newsreader and as a citizen holding policymakers to account Together Bender and Hanna expose AI hype for what it is a mask for Big Tech s drive for profit with little concern for who it affects *Business Recovery and Continuity in a Mega Disaster* Ravi Das,2022-04-20 The COVID 19 pandemic has had so many unprecedented consequences The great global shift from office work to remote work is one such consequence with which many information security professionals are struggling Office workers have been hastily given equipment that has not been properly secured or must use personal devices to perform office work The proliferation of videoconferencing has brought about new types of cyber attacks When the pandemic struck many organizations found they had no or old and unworkable business continuity and disaster recovery plans *Business Recovery and Continuity in a Mega Disaster Cybersecurity Lessons Learned from the COVID 19 Pandemic* reviews the COVID 19 pandemic and related information security issues It then develops a series of lessons learned from this reviews and explains how organizations can prepare for the next global mega disaster The following presents some of the key lessons learned The lack of vetting for third party suppliers and vendors The lack of controls surrounding data privacy especially as it relates to the personal identifiable information PPI data sets The intermingling of home and corporate networks The lack of a secure remote workforce The emergence of supply chain attacks e g Solar Winds To address the issues raised in these lessons learned CISOs and their security teams must have tools and methodologies in place to address the following The need for incident response disaster recovery and business continuity plans The need for effective penetration testing The importance of threat hunting The need for endpoint security The need to use the SOAR model The importance of a zero trust framework This book provides practical coverage of these topics to prepare information security professionals for any type of future disaster The COVID 19 pandemic has changed the entire world to unprecedented and previously unimaginable levels Many businesses especially in the United States were completely caught off guard and they had no concrete plans put into place from a cybersecurity standpoint for how to deal with this mega disaster This how to book fully prepares CIOs CISOs and their teams for the next disaster whether natural or manmade with the various lessons that have been learned thus far from the COVID 19 pandemic **Own the A.I.
