Workforce shortage in a digital era. Can 100% remote work attract more qualified candidates? Huong Hoang Thien, 2023-05-25 Master s Thesis from the year 2023 in the subject Leadership and Human Resources Recruiting grade 1 0 language English abstract What will happen if there aren t enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany s 100% remote job market In a fast changing world digital transformation has

become an evitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work However on the other hand it pointed out Germany's weaknesses in digital infrastructures and cybersecurity Additionally many German companies face a shortage of workers due to digital transformation Another reason that causes workforce shortage is demographical change Companies cannot operate their business correctly increase revenue or drive innovations to survive in a competitive market without suitable candidates Furthermore the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences Therefore companies must know them and their work preferences to fill the workforce shortage gap Remote working as a sub trend of the mega trend New Work has become the new standard for workers especially since the pandemic However there aren't any specific regulations regarding remote work in Germany yet In general remote work provides workers e.g. more freedom and a better work life balance Nevertheless remote work also has the downside such as workers experiencing isolation and loneliness due to the lack of social contact with co-workers less productivity outside of the office etc For companies offering remote work gives them complete access to the talent pools including freelancers as external workers reducing costs due to fewer offices being more attractive to job seekers But on the other side remote leadership has become a big challenge for leaders Furthermore companies have to deal more with cybersecurity When everything's going remotely companies have become an easier target of cyber attacks

Reputation in Business Stuart Thomson, 2022-09-28 A compelling mix of reputation management crisis leadership and the role of politics in business this book provides unique practical steps that leaders can take to protect their reputations and those of the organisations they head in an ever more open social media led world Although leaders increasingly recognise the vital intangible asset that reputation represents too many do not really understand what reputation is and the steps that should be taken to build it and their corporate value Given the range of factors depending on the organisation each aspect of its complex reputational story needs to be unpicked if a reputation is to be built maintained and protected This step by step guide offers advice on how to develop the strategies needed to do this provides clear lessons throughout from a range of experts and distinctively looks beyond the corporate sector to charities governments NGOs and the public sector Boards trustees non executive directors senior management and leaders of all types of organisations need to consider the steps that should be taken to build maintain and defend their reputation and that means knowing what their reputation is and the audiences that matter most to them This book is the roadmap
