**Organizing-for-Innovation** Mark Fenwick,Erik P.M. Vermeulen,Toshiyuki Kono,Tronel Joubert,2022-10-29 This book argues that large corporations need to implement governance practices and processes that make them better innovators and that the challenge is to identify organizational principles and practices that provide the best chance of delivering innovative products to create a meaningful consumer experience In this context it is important to recognize that when we address organizational forms we are not thinking of corporate governance in the sense of managing agency costs and ensuring regulatory compliance but the more pressing business task of putting in place organizational systems and processes that facilitate value creation through continued and sustained innovation The book examines how the contemporary concept and discourse of corporate governance may be obsolete or at least is increasingly disconnected from the needs and realities of the most innovative firms today The concept of organizing for innovation identifying process and practices that deliver the best opportunities for innovation needs to take centre stage This book aims to contribute to the nascent debate in this area
