Internet what he or she thought Affiliate Marketing was he or she would likely claim that it was a way of making money online as an intermediary Here people make a commission from a sale or a referral when a visitor to his or her site clicks on a link that directs him or her to a product or page online However as much as there is a lot of truth there Affiliate Marketing does not only have to take place online For example affiliate marketing is also where a plumber gives a client a discount for referring him or her to a new client It is the same concept This kind of marketing happens a lot in the real world but people do not trace or coordinate it as much as is the case with online marketing Business owners can ask their customers how they came to know about them in an effort to learn about their client base but they cannot get as much information as they would be using online tracking The growing online market has made this type of marketing more popular and profitable It has also made it easier to grow and expand whatever type of business an individual is in with the help of numerous professional marketers who will not necessarily appear on their payroll Therefore while its history started long before the invention of the Internet the Internet has transformed it and made it widely available to the masses You will start by learning all about the ins and outs of affiliate marketing and what you need to get your feet wet in the marketing world You will then learn about the importance of choosing the right niche and how to find one that will provide you with a sustainable passive income stream for years to come From there you will learn the key steps to creating a website that will attract the right type of users as well as the importance of SEO and how to ensure that your new website shows up in as many different sets of search results as possible Finally you will learn just what it takes to create the type of quality content that ensures people keeping back for more month after month and year after year Every effort was made to ensure it is full of as much useful information as possible please enjoy *Chess Life*, 2004 **\$1,530. 35 Or More** Jamie Bell, 2014-08-11 1 530 35 Or More Easy Affiliate Marketing Money for Beginners An Easy How to Guide for People Who Want to Make Money in Their Spare Time This book is a Best Seller on Amazon in the Money Making and Business Categories Is This How to Guide for Me Affiliate marketing is a great way to make money In this guide I will show you how I made 1 530 35 and growing from one article I posted on my blog and how you can do it too The beauty of affiliate marketing is that you simply introduce good products to your web site visitors and let the vendor sites take care of the sales shipping and customer support You can keep creating your cash flows one after another and grow your total earning real quick If you want to make money online and bring a better life to your family this is definitely a guide for you to get started with your affiliate marketing and earn real money However this is NOT a get rich quick or how to become a millionaire book In order to make money you will need to learn the basic skills and build your cash flows one after another Who Am I I m an online marketer who likes to work late at night Unlike many marketing gurus I don t have a sad story to share with you I was fortunate to be a well paid IT Information Technology Computer Industry professional in technology and management roles working for large corporations before I got my online business going I had two motivations to start my own business 1 To bring a better life to my family especially to my kids 2 To build the
