## **Why You Should Try Ai Customer Support Bot Ideas For Dads:**

We, the Data Wendy H. Wong, 2023-10-10 A rallying call for extending human rights beyond our physical selves and why we need to reboot rights in our data intensive world Winner of the 2024 Balsillie Prize for Public Policy Shortlisted 2024 Lionel Gelber Prize Our data intensive world is here to stay but does that come at the cost of our humanity in terms of autonomy community dignity and equality In *We the Data* Wendy H Wong argues that we cannot allow that to happen Exploring the pervasiveness of data collection and tracking Wong reminds us that we are all stakeholders in this digital world who are currently being left out of the most pressing conversations around technology ethics and policy This book clarifies the nature of datafication and calls for an extension of human rights to recognize how data complicate what it means to safeguard and encourage human potential As we go about our lives we are co creating data through what we do We must embrace that these data are a part of who we are Wong explains even as current policies do not yet reflect the extent to which human experiences have changed This means we are more than mere subjects or sources of data by products that can be harvested and used by technology companies and governments By exploring data rights facial recognition technology our posthumous rights and our need for a right to data literacy Wong has crafted a compelling case for engaging as stakeholders to hold data collectors accountable Just as the Universal Declaration of Human Rights laid the global groundwork for human rights *We the Data* gives us a foundation upon which we claim human rights in the age of data *Not My Barista* Rachelle Ayala, 2024-03-04 The cute barista is a wannabe writer and Gina Griffin doesn't date wannabe writers She's a bestselling women's fiction author and doesn't need to take a clueless beginner under her wing especially a handsome one who's so awkward with words that she finds endearing But Henry Archer is no ordinary barista He's a tech billionaire in disguise and the mastermind behind an AI chatbot designed to write like humans Henry is captivated by Gina's talent and determined to learn from her What Gina doesn't know is that he's also using her word choices to fine tune the very technology that she fears might render her craft obsolete As they grow closer Henry finds himself in a moral quandary torn between his growing feelings for Gina and the innovative technology that could change the writing industry forever Gina in turn is drawn to the charming barista with a passion for words warning him against using AI and teaching him to write from the heart Love is the last thing either one of them expects As Gina grows curious about Henry's identity and Henry frets over his newest breakthrough a hidden enemy forces his hand Will the exploding truth destroy Henry and Gina's budding romance or inspire the greatest love story ever written *Talk to Me* James Vlahos, 2019 The Next Big Thing in tech the impending revolution in voice recognition and how it will upend Silicon Valley and change how we all live our lives Experimenting with Emerging Media Platforms Dan Pacheco, 2023-06-01 *Experimenting with Emerging Media Platforms* teaches students in media tracks journalism advertising film and public relations how to independently field test and evaluate emerging technologies that could impact how media is produced consumed and monetized in the future Taking a unique trial and error approach the

author encourages students to go against their desire for perfection and instead plunge into exercises with the full expectation that they will fail many times before they succeed Through focused assignments this book provides pointers on how to familiarize oneself with current technology including extended reality XR VR AR and MR open source coding photogrammetry aerial imagery using drones automation and artificial intelligence Readers are invited to create and test their own hypotheses and work outside of their comfort zones to reach conclusions on how a technology could enhance storytelling for a particular audience Through experimentation guided by workbook exercises case studies from students and media practitioners practical tips and reminders about ethical decision making students will learn how to work like explorers and civic hackers to enact change in the media landscape Readers are invited to share their final field test results online through the book's companion website and social media channels where the author will post links to further reading coding templates for simple projects and short video tutorials Built around an established course being taught by the author and informed by over 20 years experience in media industries Experimenting with Emerging Media Platforms is essential reading for aspiring media professionals and students undertaking courses such as Emerging Media Media Innovation and Media Startups For additional resources please see the companion website [www.emergingmediaplatforms.com](http://www.emergingmediaplatforms.com) **Dry Goods**
