AI For The Last Generation Of Human Workers DEREK. HUGHES, 2025-07-14 Does the AI come pre installed or do we have to download it from a disc An actual f cking question from the people who decide if AI can kill us all So while these legislative geniuses are still trying to figure out how to unmute themselves on Zoom AI is out there writing better poetry than your college girlfriend designing logos that don t look like a toddler sneezed on Microsoft Paint and composing music that s somehow less repetitive than whatever the hell they re playing on the radio these days Oh and it s also methodically destroying every creative job on the planet But hey at least it s efficient about it This book is for people who want to understand AI without getting a PhD in disappointment What ChatGPT Midjourney and all these other tools actually do spoiler it s not magic it s just really fancy autocomplete that got too big for its britches Why cloud AI is like having a brilliant intern who also happens to be a creepy stalker reading all your emails while local AI is like owning a Ferrari you built yourself in a garage powerful as hell but probably gonna explode How to write prompts that don t make you sound like you re ordering at a drive through while having a stroke Uh yeah gimme one art please extra creative hold the Copyright infringement Everything you need to know about generating text images music voices code and that special moment when you realize you might be completely f cking useless This thing is short because nobody has time for 400 pages of tech bros jerking themselves off about disruption It s sarcastic because that s the only sane response to watching humanity hand over its creative soul to a calculator And it s unfiltered because someone needs to tell you the truth instead of trying to sell you a 2 000 course on Prompt Engineering Your Way to Millions Read it Learn something Then pretend you saw this coming all along
