Once I Was A Democrat Dr. Ravi Sethi PhD, MBA, 2025-04-02 Our politicians are opportunistic and divisive Essentially we elect mini kings and queens who misuse and manipulate their power to stay elected perpetually We need to make sure that our elected representatives obey the true opinion of their constituents We need to bring our democracy into the new age of high technology era and introduce easy to use voting or polling tools to create a true issue based democracy not party based It will create a better checks and balances system for people The issues that affect economic health of our people should not be subjected to the vagaries of politicians The book describes the issues and the positions taken predominantly by the Democrats and Republicans as well that are not optimal for the economic health of all people excessive and unthoughtful immigration race or group based preferences complex tax system poorly implemented welfare system and little or no efforts to increase the wages income or net worth of middle and poor segments of our society The author presents solutions to some of the issues that need to be polled and voted upon by the people to decide and force their representatives to follow

Artificial Intelligence (AI) in Social Research Prokopis A. Christou, 2025-04-08 The field of social research is characterized by its broad scope and

interdisciplinary nature encompassing the examination of human behaviour societies and various facets of social existence however it is influenced by numerous factors including technological advancements It is therefore no surprise that Artificial Intelligence AI has rapidly become a driving force bringing about substantial transformations within the field The use of AI assisted tools and programmes for the collection analysis and interpretation of both quantitative and qualitative data is increasing at a remarkable pace The implications of utilizing these applications are significant and noteworthy While these technologies present numerous opportunities it is important to acknowledge the accompanying dilemmas and risks associated with this form of technological advancement With a focus on AI s research implications this book explores various considerations and examples across different disciplines of social research Fintech Founders Agustín Rubini,2019-12-16 Over 70 in depth interviews of Fintech Founders provide lessons from some of the most successful fintech entrepreneurs that will help you understand the challenges and opportunities of applying technology and collaboration to solve some key problems of the financial services industry This book is for entrepreneurs for people working inside of large organizations and everyone in between who is interested to learn the secrets of successful entrepreneurs In this advice filled resource Rubini gathers advice that comes from a diverse range of financial services niches including financing banking payments wealth management insurance and cryptocurrencies to help you harness the insights of thought leaders Those working inside the financial services industry and those interested in working in or starting up businesses in financial services will learn valuable lessons on how to take an idea forward how to find the right business founders how to seek funding how to learn from initial mistakes and how to define and reposition your business model Rubini also inquires into the future of fintech and uncovers provoking and insightful predictions **Getting Skills Right Training Supply for the Green and AI Transitions Equipping Workers with the Right Skills** OECD,2024-12-11 Adult learning systems are being called upon to prepare workers for major labour market shifts including the green transition and the rise of artificial intelligence AI in the workplace While initial education is important upskilling and reskilling the existing workforce is essential to help individuals and businesses adapt and prepare for these transitions Policy makers face the challenge of ensuring training is both relevant and inclusive yet there is limited understanding of whether current training supply is sufficient to meet current and future skill needs Most research focuses on the demand for skills with little insight into the supply To fill this gap this report uses evidence from new OECD questionnaires and an analysis of training catalogues to evaluate whether current training supply aligns with the skills needed for the green and AI transitions It also provides insight into the accessibility and flexibility of training efforts to guide policy makers in their efforts to develop more effective inclusive training strategies *U.S. News & World Report* ,1977 Corporate Control Nora Loreto,2025-05-06 How deep does corporate dominance go in Canada The second book in Nora Loreto s landmark series dives into the corporate web spun around Canada s economy society and politics The joke goes that Canada is three mining companies in a trench coat Or three oil companies in a trench coat Or

three telecom companies in a trench coat It s funny because it s almost true a handful of corporations exert a disproportionate amount of power over Canadian democracy Corporate profits are at a record high and the divide between the rich and the poor has never been wider Canadians are struggling with affordability the housing crisis and wages that don t cover basic needs The combination of these forces is a pressure cooker that politicians have promised to tackle except they can t they are too restricted by corporate power to confront the roots of the problems Canadians face The first book in the Canada in Decline series examines the rise and fall of Canada s social safety net In this next volume Loreto goes further identifying why Canadian politicians seem impotent in the face of corporate Canada **AI Magazine** ,1992 CC AI ,1990
