Crofton-Sleigh,Brian Beams,2024-05-14 While uses and studies of XR technology within STEM based education have been plentiful in recent years there has been lesser or even at times a lack of coverage for this novel learning tool in the arts and humanities Past and Future Presence aims to bridge some of that gap by presenting research based theory and case studies of successful application and implementation of XR technology into postsecondary educational settings ranging in topics from ancient to modern languages classical and contemporary art and reenvisioned historical scenes and events presented in ways never seen before The studies also contemplate how this novel medium can enhance and supplement learning in classrooms and other formal or informal learning environments The volume as a whole is intended to demonstrate to educators scholars and researchers in higher education the potential value of integrating XR technology into their classrooms and to provide a strong argument for college and university administrators to invest in training and development of new research and content for classrooms inside and outside of STEM The authors of these chapters come from a diverse range of backgrounds at different stages of their careers providing a broad crosssection of scholastic work within the humanities and arts Each chapter offers a different angle or approach to incorporating XR technology into teaching or research within different subject areas As the volume suggests this technology also places additional emphasis on the humanity within the humanities by focusing on increasing connection between users and different cultures time periods and perspectives Data-Driven

Innovation in the Creative Industries Melissa Terras,Vikki Jones,Nicola Osborne,Chris Speed,2024-04-17 The creative industries the place where art business and technology meet in economic activity have been hugely affected by the relatively recent digitalisation and often monetisation of work home relationships and leisure Such trends were accelerated by the global COVID 19 pandemic This edited collection examines how the creative industries can be supported to make best use of opportunities in digital technology and data driven innovation Since digital markets and platforms are now essential for revenue generation and audience engagement there is a vital need for improved data and digital skills in the creative and cultural sectors Taking a necessarily global perspective this book explores the challenges and opportunities of data driven approaches to creativity in different contexts across the arts cultural and heritage sectors Chapters reach beyond the platforms and approaches provided by the technology sector to delve into the collaborative work that supports innovation around the interdisciplinary and cross sectoral issues that emerge where data infrastructures and approaches meet creativity

A novel intervention that uniquely centres the role of data in the theory and practice of creative industries innovation this book is valuable reading for those researching and studying the creative economy as well for those who drive investment for the creative industries in a digitalised society The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 International license **Choice**, 2004 **Video Source Book**, 2008 **Current Index to Journals in Education**, 1987-07 *Library & Information Science Abstracts*, 1991 Science Citation Index, 1992 Vols for 1964 have guides and journal lists
