Revolutionizing Education With Remote Experimentation and Learning Analytics Ponnusamy, Sivaram, Antari, Jilali, Jeon, Gwanggil, Assaf, Mansour, Sharma, Bhisham, 2025-03-28 Education is undergoing critical transformations driven by innovations in remote experimentation and learning analytics. As technology reshapes how we teach and learn, remote experimentation allows students to conduct hands-on, interactive experiments from anywhere in the world, breaking down geographical and resource-based barriers. This shift enhances access to advanced learning opportunities while fostering engagement and practical understanding in fields traditionally reliant on in-person labs. Learning analytics harness the power of data to track student progress, personalize learning experiences, and identify areas for improvement in real time. Together, these tools revolutionize education by providing more flexible, inclusive, and data-driven approaches that can adapt to individual learning needs, paving the way for an effective and accessible global education system. *Revolutionizing Education With Remote Experimentation and Learning Analytics* explores how digital technology may change how schools work. It examines learning analytics and remote experimentation for improved education while delving into the most recent findings and cutting-edge approaches. This book covers topics such as data analysis, higher education, and student engagement and is a useful resource for educators, academicians, researchers, data scientists, computer engineers, and sociologists.

Chatgpt and Other Generative AI Tools Jochen Kuhn, Stefan Küchemann, Knut Neumann, Martina Rau, 2025-02-17 In the past ten years, applications of generative artificial intelligence (GAI) have found rapidly growing use in medicine, science, and daily life. Large language models (LLMs) opened up new avenues, in particular for education. LLMs have been used to create interactive educational content for students, stimulate their curiosity, generate code explanations, and

develop assessment questions Additionally LLMs been applied for language practice anxiety alleviation and feedback provision In higher education LLMs have shown potential for assisting in medical exam preparation and clinical decision making In school education LLMs can help teachers with automated evaluation of student responses and respective adaptive feedback More recently LLM based applications such as chatGPT have been used to generate teaching materials or assessment tasks across different subjects The fields understanding of the effects of the use of LLM based applications in classroom teaching however is still in its infancy GAI tools may help solving a range of tasks in education in particular with respect to teachers and students and teachers efforts to generate content However it is critical that teachers and students do not overly rely on GAI generated solutions but instead critically assess each solution Students should furthermore not use GAI tools to avoid investing relevant mental effort to create mental models or more broadly build up competencies
