Life Unscripted: What You Should Have Learned in High School
David Webb, 2025-04-09

Life doesn't come with a manual. Many of us leave high school feeling unprepared for the realities of adulthood. Whether it's managing finances, nurturing relationships, or taking care of our mental and physical well-being, the transition into adulthood can be overwhelming. *Life Unscripted: What You Should Have Learned in High School* is designed to fill in those gaps, offering practical advice and real-world strategies to help you thrive. This book isn't just about memorizing facts; it's about developing skills and habits that will empower you to handle life's challenges with confidence. Each chapter dives into an essential aspect of adulthood, from managing money to building strong relationships, maintaining mental health, and making informed decisions. While each topic is unique, several key themes will appear consistently throughout the book. These core principles are the foundation of personal growth, responsibility, and success.

Popular Science, 2004-12

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that *Popular Science* and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

The Borderless Healthcare Revolution
Sarah Matt, 2025-11-19

Concrete, hands-on strategies for making healthcare more accessible for everyone. *The Borderless Healthcare Revolution: The Definitive Guide to Breaking Geographic Barriers Through Technology* is your field guide to a future in which a clinic visit is never farther away than the nearest screen, and a surgeon's skill can cross oceans in real time. Drawing on two decades at the intersection of medicine and technology, including years as a senior leader at Oracle's global health division, Dr. Sarah Matt translates frontier-grade innovation into day-to-day practice for clinicians, health system strategists, and policymakers who refuse to accept geography as destiny. Inside, you will find concrete playbooks rather than platitudes; every framework has been piloted in settings that range from Manhattan cath labs to Kenyan community clinics. You will also meet the patients and providers whose lived stories prove that digital transformation works only when it works for everyone. What you will learn: The tech that already moves care without moving patients; telemedicine; remote surgery; ambient AI; and how adoption curves exploded after 2020, with more than three quarters of US hospitals now running telehealth programs. Human-centered design tactics that translate pixels into trust; from inclusive language pivots to offline-first apps that respect bandwidth deserts. A five-pillar access audit that flags physical, financial, cultural, digital, and trust barriers in any market. Plus scorecards to track progress. Strategy checklists forged during Dr. Matt's tenure at Oracle for aligning payers, regulators, and vendors around sustainable reimbursement models. Future readiness briefs on robotics and mixed reality training at a moment when the surgical robotics
