Ryan M. Frischmann, 2014-07-19 Online personal branding is a requirement for all professionals. More importantly you have an opportunity to proactively project your personal brand onto networks. Two other advantages of personal branding are that it forces you to be visionary of your career goals and helps you land favorable employment. This book shares a functional angle to personal branding that is refreshingly simpler than the traditional marketing angle. The definition of an online personal brand is the combination of a skill set, an aura, and an identity, and there is discussion where the concepts overlap.
