Religion, Spirituality and Secularity among Millennials Sarah Wilkins-Laflamme, 2022-08-19 This book explores the world of religion, spirituality and secularity among the Millennial generation in the United States and Canada with a focus on the ways Millennials are doing non-religion differently in their social lives compared with their parents and grandparents. It considers the influences exercised on the non-religious and spiritual landscapes of young adults in North America by the digital age, precarious work, growing pluralism, extreme individualism, environmental crisis, advanced urbanism, expanded higher education, emerging adulthood and a secular age. Based on extensive primary and secondary quantitative data complemented with high quality qualitative research including interviews and focus groups, this book offers cross-national comparisons between the United States and Canada to highlight the impact of different social environments on the experience of religion, spirituality and secularity among the continent's most numerous generation. As such, it will appeal to scholars of religion and sociology with interests in religious and societal change as well as in religious practice among young adults.

Rethinking Hybrid and Remote Work in Higher Education Roy Y. Chan, Xi Lin, Krishna Bista, 2023-09-30 This timely volume explores the current and future state of hybrid and remote work in higher education from national, regional and global perspectives. Today, colleges and universities worldwide must ensure that they have adequate information and communications technology (ICT) infrastructure, equipment and systems to adapt to the new normal post-COVID-19. Hybrid and remote work can be a source of boosting productivity and advancing institutional change in higher education. Common within the management and leadership literature, hybrid and remote work is an understudied phenomenon in higher education administration. This book investigates the rapid rise of remote and hybrid work during and after the global pandemic and what it means for the future of higher education in the United States and abroad. By developing a comprehensive research-based knowledge and framework, this book seeks to equip and empower teacher-scholars and practitioners to operate safely, securely and efficiently in a remote or hybrid environment.
