**Enhancing Workplace Productivity Through Gender Equity and Intergenerational Communication** Chandan, Harish C., 2025-06-19 In today's work environment fostering gender equity and strengthening communication has become essential to enhance workplace productivity. As companies strive for innovation and resilience, having a diverse perspective ensures equitable opportunities and representation to all genders can unlock greater collaboration, creativity, and efficiency. By creating inclusive cultures that value both experience and fresh viewpoints, companies can harness the full potential of their teams, driving sustainable success and a more engaged, empowered workforce. *Enhancing Workplace Productivity Through Gender Equity and Intergenerational Communication* discusses how workplace productivity can be increased through gender equity. It further investigates how intergenerational communication between different genders can increase innovation and workplace productivity. Covering topics such as entrepreneurship, multigenerational workforce, and workplace productivity, this book is an excellent resource for researchers, academicians, policymakers, human resource professionals, business leaders, and more.

**Do More in Four** Joe O'Connor, Jared Lindzon, 2026-01-13 An impassioned and data-driven case for a four-day workweek. The five-day workweek is a pillar of modern life, but it isn't backed by science, ancient wisdom, or divine decree. It's simply a relic of the industrial age, and it's time for an upgrade. What if we could accomplish more while working fewer days? A shortened workweek once seemed like a radical idea. Today, it's embraced by innovative business leaders, forward-thinking politicians, and a new generation of workers demanding more meaningful work. In *Do More in Four*, Joe O'Connor, a pioneer in designing and leading four-day workweek pilots around the globe, and journalist Jared Lindzon, whose work has appeared in the *New York Times*, *Fortune*, and *TIME* magazine, present a groundbreaking, data-driven exploration of why a four-day workweek isn't merely possible; it's necessary in the age of artificial intelligence. O'Connor and Lindzon draw on extensive research, compelling case studies, and personal interviews with experts, including a Nobel Prize-winning economist and Bill Gates, to reveal how organizations are reimagining work. From a consumer products giant in New Zealand to a global nonprofit, a Canadian law firm, and a Midwestern architecture firm, they take readers inside the companies transforming their work models to improve employee outcomes while driving revenue growth. *Do More in Four* offers a battle-tested blueprint for a smarter, more humane approach to work.
