Internet Memes and Copyright Law Brian Chun Lok Leung, 2025-09-30 This book explores the intricate relationship between copyright law and internet meme culture challenging an assumption that copyright is a barrier to digital creativity Using the lens of internet memes to analyse copyright law in the context of participatory remix culture the book confronts a common perception that copyright is the destroyer of internet memes on social media platforms Following the European Union's Copyright Directive widely known as the Meme Ban this book critically examines whether copyright might instead be reimagined to foster rather than inhibit re creations that define internet meme culture The book argues that this culture directly challenges copyright's core assumptions and proposes a new holistic approach to copyright that distinguishes between traditional and emergent forms of creative processes Arguing for a flexible interpretation of copyright that limits private proprietary rights in the case of internet memes it provides a legal framework to support socio cultural discourse without undermining copyright's foundational principles Covering core copyright concepts such as authorship idea expression originality fair dealing and user rights the book provides a compelling argument as to how copyright can adapt to the digital age as a protector of cultural expressions ensuring that internet memes are not only preserved but celebrated The book will be of interest to researchers in the field of copyright law the law of emerging technologies and intellectual property law

A History of Advertising Jef I Richards, 2022-05-15 Advertising has always been a uniquely influential social force It affects what we buy what we believe who we elect and so much more We tend to know

histories of other massive social forces but even people working in advertising often have a tenuous grasp of their field's background. This book slices advertising's history into a smorgasbord of specific topics like advertising to children, political advertising, people's names as advertisements, 3D advertising, programmatic buying and so much more, offering a synopsis of how each developed and the role it played in this discipline. In doing so, many firsts are identified such as the first full-page color magazine advertisement and the first point-of-purchase advertisement. This book also reaches back farther in search of the earliest advertisements and it tells the story of the variety of techniques used by our ancestors to promote their products and ideas. Part textbook, part reference, the book is an advertising museum in portable form, suitable for all levels of students, scholars, and armchair enthusiasts. Please note that the hardback and eBook formats of this book feature full color printing. The paperback is grayscale.

Reporting Humanitarian Disasters in a Social Media Age Glenda Cooper, 2018-10-26
From the tsunami to Hurricane Sandy, the Nepal earthquake to Syrian refugees, defining images and accounts of humanitarian crises are now often created not by journalists but by ordinary citizens using Twitter, Facebook, YouTube, Instagram, and Snapchat. But how has the use of this content and the way it is spread by social media altered the rituals around disaster reporting, the close if not symbiotic relationship between journalists and aid agencies, and the kind of crises that are covered? Drawing on more than 100 in-depth interviews with journalists and aid agency press officers, participant observations at the Guardian, BBC, and Save the Children UK, as well as the ordinary people who created the words and pictures that framed these disasters, this book reveals how humanitarian disasters are covered in the 21st century and the potential consequences for those who posted a tweet, a video, or photo without ever realizing how far it would go.

Social CRM is critical to business success in today's hyper-connected environment. Customers' expectations are so great and their demands so empowered that a Social CRM strategy must be built around collaboration and customers' engagement, not traditional operational customer management. It's the company's response to the customer's control of the conversation that makes Social CRM work. Written by CRM guru Paul Greenberg, *CRM at the Speed of Light, Fourth Edition* reveals best practices for a successful Social CRM implementation. Greenberg explains how this new paradigm involves the customer in a synergistic discussion to provide mutually beneficial value in a trusted and transparent business environment. Throughout this definitive volume, you'll find examples of the new strategies for customer engagement and collaboration being used by cutting-edge companies, along with expert guidance on how your organization can and should adopt these innovations. *CRM at the Speed of Light, Fourth Edition* reviews the latest technological developments in the operational side of CRM, including vertical applications, and explains the fundamentals of the multifaceted CRM framework. Quite simply, it is the definitive work for anyone committed to putting the social customer at the center of their operation. Brian Komar, Director of Interactive Marketing and CRM Center for American Progress: With great insights, great stories, and great information, Paul Greenberg analyzes the impact of every major industry development on vendor-customer relationships. Not only is he on top of his game, he makes reading this edition as enjoyable as it was to read the previous three. This is an absolute must-read for anyone serious about understanding how to best serve today's social customer. Brent Leary, CRM industry analyst and co-author of *Barack 2.0: Social Media Lessons for Small Business*: This edition is packed with new insights about how online conversations are changing the nature of customer relations. Think the CRM market is crazy now? Hitch a ride on Greenberg's shoulders because you ain't seen nothing yet. Paul Gillin, author of *The New Influencers* and *Secrets of Social Media Marketing*: As we make the shift to SCRM, Paul's insights provide a much-needed framework on how to navigate a more connected social and collaborative enterprise. R Ray Wang, Partner, Enterprise Strategy Altimeter Group LLC: Paul Greenberg is one of the most astute minds in CRM and social media today. His book remains the bible for companies employing CRM.
