New Primary Leaders Michael Cowie, 2011-08-11 New primary leaders face significant challenges worldwide and this book brings together the range of those experiences and challenges for the first time. It includes interviews with primary school leaders in the early years of leadership in 12 different countries. Each chapter begins with an introduction to the principal and the local context before the principal's own description of her or his experience as a new leader. The leaders discuss how they prepared for principalship, their experiences after taking up the post, the extent to which the job meets with their expectations and their hopes and fears for the future. The final chapter provides a comparative overview exploring new principals' perceptions of key influences on schools and their communities, their reactions to the multiple heightened and often conflicting expectations, pressures and challenges they encounter, and the implications for principal preparation internationally. The voices of principals from around the world provide a vivid and authentic picture of new school leaders in different contexts at the beginning of the 21st century.

Organizational Behavior Mitchell J. Neubert, Bruno Dyck, 2021-04-13 *Organizational Behavior For a Better Tomorrow* 2nd Edition is a unique blended approach to the subject combining traditional core competencies with contemporary research and innovative practices. The textbook's distinctive dual presentation integrates conventional and sustainable organizational behavior (OB) to help students understand how creativity, collaboration, and ethical decision making can positively impact people, organizations, and entire communities. This fully updated second edition provides a balanced real world approach that strengthens critical thinking skills, enables students to explore the rationale for sustainable OB practices, and illustrates how values and ethics influence business decisions in the real world. Rather than focusing only on the short-term bottom line approach of traditional OB, the text discusses a comprehensive range of topics from current trends in popular media and scholarly literature to addressing the current and long-term needs and goals of organizational stakeholders.
