**e-Democracy** Alfredo M. Ronchi, 2019-04-12. This book explores the main elements of e-Democracy, the term normally used to describe the implementation of democratic government processes by electronic means. It provides insights into the main technological and human issues regarding governance, government participation, inclusion, empowerment, procurement, and last but not least, ethical and privacy issues. Its main aim is to bridge the gap between technological solutions, their successful implementation, and the fruitful utilization of the main set of e-Services, totally or partially delivered by governments or non-government organizations. Today, various parameters actively influence e-Services' success or failure: cultural aspects, organisational issues, bureaucracy, and workflows, infrastructure, and technology in general, user habits, literacy, capacity, or merely interaction design. This includes having a significant population of citizens who are willing and able to adopt and use online services, as well as developing the managerial and technical capability to implement applications that meet citizens' needs. This book helps readers understand the mutual dependencies

involved further a selection of success stories and failures duly commented on enables readers to identify the right approach to innovation in governmental e Services With its balanced humanistic and technological approach the book mainly targets public authorities decision makers stakeholders solution developers and graduate students     **The Fourth Intelligence**

**Revolution** Anthony Vinci,2025-10-28 A former senior intelligence officer reveals how espionage is being transformed by a new global intelligence race driven by AI and competition with China and how this impacts all of our lives The new global intelligence competition has brought espionage into our workplaces and our living rooms Adversaries like China Iran and Russia have realized that the human element is the weakest link in our industrial and political infrastructure As a result they target all of us stealing our financial data and medical records eavesdropping on our conversations and using platforms like TikTok and Hollywood movies to influence our opinions The Fourth Intelligence Revolution reveals how the undercover adventures of World War II the spy versus spy confrontations of the Cold War and the find fix and finish counterterrorism missions after 9 11 have given way to the most dangerous period of espionage yet This eye opening account exposes how intelligence now permeates every corner of society from economic espionage and genetic data gathering to information operations targeting children through AI chatbots even extending to reconnaissance on the far side of the moon Both a warning and a call to action The Fourth Intelligence Revolution suggests that we are all in essence becoming intelligence officers and that citizens have both the power and responsibility to reclaim intelligence to safeguard and strengthen our democracy     **Machine Learning for Beginners** Manish Soni,2024-11-13 Welcome to Mastering Deep Learning
