Knoch, Stefan Manevski**

Essential Hybrid Work Schedule Ideas For Teens:

T-Kit 6 - Training essentials Sabine Klocker, Snežana Bačlija Knoch, Stefan Manevski, 2021-12-01 The training of youth workers is one of the main priorities of both the European Commission and the Council of Europe and of their partnership in the field of youth. Youth work is in the spotlight for both institutions and youth workers are essential for the quality of its provision. This revised T Kit aims to equip youth workers and youth trainers with the essentials of non formal education training. It is a practical tool for them to develop training competences and learn more about educational theory, concepts, tools, practices, resources as well as hands on tips as this handbook is written by trainers for trainers and youth workers in the European youth field. Whereas other T Kits focus on one specific area of youth work training, this one emerges from the broader European youth work context and enables trainers and youth workers to reflect on their daily practice as this publication follows the logic of an entire training cycle from beginning to end of any youth training programme with an international dimension. The European youth training field has undergone massive changes since this T Kit was first published in 2002. Especially when it comes to digitalisation, the focus on trainer competences and competence development, training standards and quality criteria for training, recognition of non formal education, accessibility and diverse ability dimensions. Topics such as access, gender, environment and sustainability or the focus on learning environments, emotional management and well being of the trainer have greatly changed non formal education settings. This T Kit offers information, links and resources on how to work with young people in non formal education training settings today and make a difference in their personal lives as well as their peer groups and communities beyond. [Building Europe Through Education, Building Education Through Europe](#) Raphaëlle Ruppen Coutaz, Simone Paoli, 2024-09-27 This edited volume explores the role of education in the process of European cooperation and integration as it has been conceived and realized in the late 20th century and the early 21st century as well as the mirror of this narrative, the effects of the European integration process on education. Through this dual analysis, the contributors reflect on the concept of Europeanization by showing the complex interplay between Europeanization through education and Europeanization of education. Part I offers a critical overview of the actors, spaces, actions and pedagogies designed to promote the European project and build Europeans. Part II examines how work done on the European continental level has impacted the educational sphere and national education systems. The case studies cover a wide range of international institutions: College of Europe, European Schools, European Centre for Culture, European University Institute, international organizations: EC, EU, OEEC, OECD, Council of Europe, UNESCO and transnational actors: European Trade Union Committee for Education, European Federation of Education Employers, providing interdisciplinary insight into how this dialectic contributed to shape Europe as a whole. This book will be of interest to graduate and postgraduate students, teachers and researchers of international cultural relations. Europeanization and education from a transnational perspective.
