Student Agency in Devised Theatre Education Mike Poblete, 2025-02-27 This monograph argues that implementing devised theatre as a learning praxis has a unique potential to cultivate student agency in the twenty first century classroom It offers actionable guidance for drama instructors by providing a new arts education methodology that emphasizes the role of student led dramaturgy Based on quantitative and qualitative analyses of survey results group interviews and field observations from the facilitation of two original pieces of digital devised theatre created by Pacific Islander and Asian American public high school students on O ahu the author documents the crucial roles of constructive and resisting student agency in a devised theatre classroom This book then departs from established research in suggesting that passivity serves a crucial role in allowing students to assert agency nonconfrontationally which has considerable implications for peripatetic learners It also investigates the role of student agency in online theatre education which along with expected challenges was found to produce unique benefits such as real time documented performance feedback and accessible asynchronous teacher guidance Further a new form of student agency is identified one exclusive to online learning environments where students assert themselves by discussing technological challenges such as slow Wi Fi camera malfunctions or other pragmatic concerns Finally this book makes a case that the success of these projects with Pacific Islander and Asian American students suggests that although devising comes from a White Eurocentric tradition it can provide an effective learning strategy for students from a wide variety of backgrounds As global discourse continues to push toward reform that would allow populations around the world increased agency over their lives this volume makes a unique contribution to the critical conversation around student agency in education today and will appeal to scholars and researchers across arts education and theatre and performance studies

Handbook of Research on Future of Work and Education: Implications for Curriculum Delivery and Work Design Ramlall, Sunil, Cross, Ted, Love,

Michelle,2021-10-08 Higher education has changed significantly over time In particular traditional face to face degrees are being revamped in a bid to ensure they stay relevant in the 21st century and are now offered online The transition for many universities to online learning has been painful only exacerbated by the COVID 19 pandemic forcing many in person students to join their virtual peers and professors to learn new technologies and techniques to educate Moreover work has also changed with little doubt as to the impact of digital communication remote work and societal change on the nature of work itself There are arguments to be made for organizations to become more agile flexible entrepreneurial and creative As such work and education are both traversing a path of immense changes adapting to global trends and consumer preferences The Handbook of Research on Future of Work and Education Implications for Curriculum Delivery and Work Design is a comprehensive reference book that analyzes the realities of higher education today strategies that ensure the success of academic institutions and factors that lead to student success In particular the book addresses essentials of online learning strategies to ensure the success of online degrees and courses effective course development practices key support mechanisms for students and ensuring student success in online degree programs Furthermore the book addresses the future of work preferences of employees and how work can be re designed to create further employee satisfaction engagement and increase productivity In particular the book covers insights that ensure that remote employees feel valued included and are being provided relevant support to thrive in their roles Covering topics such as course development motivating online learners and virtual environments this text is essential for academicians faculty researchers and students globally

Organization and Management of Virtual Teams Andreas Pfneisl,2001-10-10 Inhaltsangabe Abstract The idea to write my master s thesis on Organization and Management of Virtual Teams arose during the 6th term of my studies which was an exceptional term in many ways I was part of several teams then which is nothing extraordinary I guess What made those teams special were the people I was working with or better I got the possibility to work with I had worked in teams before in the course of my studies and had had some really bad experience with lazy and unproductive people who simply couldn t or did not want to identify with tasks and goals of various projects What was so special with those teams in the summer term of 1999 was that most of the team members could identify with the goals set they worked they tried really hard to stick to deadlines and targets they took justified criticism as positive feedback they were punctual they communicated and so on in short I was part of some very very productive purposeful teams one of the results was that I did my most successful term that term the work of nearly two terms during this one Well two seminars during this spring were dealing with the topic Virtual teams and I got really interested in So I decided to do my master s thesis on this subject I found a nice and easy going supervisor who was interested in the topic as well and I started

to write on the thesis at the end of my stay in Stockholm Sweden as an ERASMUS exchange student But why this topic why a thesis on virtual teams Several reasons should be mentioned My interest in the topic Since I am studying Wirtschaftsinformatik Economical Computer Science a mixture between economics and computer science I am interested in both economics and technology What topic suits that combination better than Virtual Teams which have to work for economic reasons across distances and organizational borders all this with the help of the latest technology The challenge Not a lot was written about the subject Virtual Teams when I started to look for literature suitable for my thesis I hardly could find books in Sweden and the ones I finally chose I had to order from the US which is also a reason why this thesis is written in English because all the literature I used was written in English So it was quite a challenge but exciting to write about something new Furthermore as I did part of the thesis in Sweden and the other part in Austria I had the opportunity to do

Knowledge Management Handbook Jay Liebowitz,1999-02-25 Many organizations are now realizing that their competitive edge lies mostly in the brainpower the intellectual capital of their employees and management To stay ahead of the pack companies must leverage their knowledge internally and externally But it is not enough to develop lessons learned databases Experts now believe the current savior of organizations is knowledge management the conceptualization review consolidation and action phases of creating securing combining coordinating and retrieving knowledge in short the process of creating value from an organization s intangible assets Jay Liebowitz one of the leading knowledge management and expert systems authorities in the world brings together over thirty articles contributed by the top researchers and practitioners to produce what seems destined to become the key reference for this emerging field With it you will find How to create a knowledge sharing environment How senior executives can show tangible benefits using methods that value the intellectual capital especially the human capital within the organization How knowledge management is not the same as information management How senior management commitment and involvement are essential to the success of a knowledge management system

Higher education institutions around the world are experimenting with many different types of virtual learning environments. This book argues that information and communication technologies will have a major impact on teaching and learning and universities should have a strategy to meet this change. It posits that institutions and individuals will not be able to individually obtain the best advantages from these new technologies; that there is need for specialization and cooperation. Experiences with Internet learning indicate that students as well as teachers have to accept patterns quite different from the traditional teaching learning pattern. Traditional university staff may resist these changes but institutions which do not adjust to the new opportunities are likely to shrink or even disappear.

Simulation and technology enhanced training for Health Care Workers. Preparing and responding to novel. Corona Virus 19 Pandemic challenges and opportunities in tertiary care Hospitals in India Unni Krishnan.SV,2020-08-03 Abstract from the year 2020 in the subject Health Miscellaneous course SIMULATION BASED EDUCATION language English abstract

The first case of novel corona virus disease COVID 19 was diagnosed in Wuhan Hubei Province of China in December 2019. The virus was rapidly spreading to the domestic areas of China as well as internationally. In India the first case of corona virus pandemic was reported on 30 January 2020. Wiki REF 1 Coronavirus is a RNA virus and is the largest among the RNA viruses approximately 26 to 32 kilo bases from the coronaviridae family Subfamily Orthocoronavirinae order Nidovirales and realm Riboviria. COVID 19 is having many similarities with severe acute respiratory syndrome SARS Ebola and even influenza. This is also called as SARS Covid 19. Mortality and morbidity associated with covid 19 is very high. India being a developing country the Indian ministry of health and family welfare has initiated special attention to this pandemic. Special measures have been taken to control the incidence and prevalence of Covid 19. In order to handle this situation in our health care setting we initiated special training to all our staffs including medical paramedical and skilled workforces. With the help of simulation based training and e learning platforms via mobile app the training programmes were executed and implemented. Our team has developed 25 working instructions for all the employees working in Max Health Care. The instructions and videos were uploaded in our e learning portal and is assigned to all the employees under war basis. Within a time frame of 72 hours all staffs have to complete the modules following by hands on simulation training. We followed all the safety precautions while arranging the simulation training as per WHO standard guidelines for Covid 19.
