Provides a comprehensive overview of the current state of the art of automation in agriculture. Enables improved productivity and resource optimization. Presents advanced monitoring mapping methods in soil properties, nutrients, crop growth, and yield.

Balancing Automation and Human Interaction in Modern Marketing Nair, Arjun J., Manohar, Sridhar, Mittal, Amit, Ahmed, Wasim, 2024-04-05. In modern marketing, a pivotal challenge has surfaced: finding the delicate balance between automation and human interaction. This challenge stems from the rapid advancement of artificial intelligence (AI) technologies, which, while promising unparalleled efficiency and innovation, also lack the personal touch inherent in traditional marketing. As AI gains prominence, marketers grapple with integrating automated processes while preserving the authenticity and emotional resonance that human engagement brings. *Balancing Automation and Human Interaction in Modern Marketing* positions itself as a guiding force in achieving balance amid the changing marketing landscape. Within the pages of this book lies a comprehensive exploration of contemporary marketing challenges centered on striking the right balance between automation and human interaction. The quest for optimal equilibrium threads through topics such as elevating customer experiences, scalable personalization through AI, emotional intelligence in marketing, and the critical role of human-centered design. By addressing these challenges head-on, the book provides practical advice for implementing AI in marketing but positions ethics at the forefront. It advocates for responsible AI-driven marketing, fostering trust and ensuring that the human touch remains a cornerstone of brand-consumer relationships.

Artificial Intelligence and the Future of Human Relations Yanto Chandra, Ruiping Fan, 2025-09-26. This book stimulates new conversations around the ethical and policy considerations stemming from the influence of artificial intelligence (AI) on human relationships within a cross-cultural perspective. With chapters from distinguished scholars from Eastern and Western backgrounds, it delves into the fundamental aspects of human connections and good governance, examining them through the perspectives of both Eastern and Western values while addressing the implications of AI. While the recognition of AI's substantial challenges to human values and effective governance is widespread, there exists a notable lack of focus on its impact on the essential human relationships that embody these values and encompass human identity within Eastern and Western traditions. By

centering attention on this aspect the book highlights a critical concern for the development of AI that is suitable for the future of human relationships and good governance Specifically the book seeks to examine the influence of AI on essential human relationships such as those between parent and child spouses the elderly and the young physician and patient as well as relations between friends citizens and nations It is an essential resource relevant to academics in philosophy applied ethics and bioethics AI ethics social and political philosophy
