Inner Paths To Outer Space By Rick Strassman M D

Rick Strassman

Inner Paths To Outer Space By Rick Strassman M D:

Inner Paths to Outer Space Rick Strassman, Slawek Wojtowicz, Luis Eduardo Luna, Ede Frecska, 2008-03-27 An investigation into experiences of other realms of existence and contact with otherworldly beings Examines how contact with alien life forms can be obtained through the inner space dimensions of our minds Presents evidence that other worlds experienced through consciousness altering technologies are often as real as those perceived with our five senses Correlates science fiction s imaginal realms with psychedelic research For thousands of years voyagers of inner space spiritual seekers shamans and psychoactive drug users have returned from their inner imaginal travels reporting encounters with alien intelligences Inner Paths to Outer Space presents an innovative examination of how we can reach these other dimensions of existence and contact otherworldly beings Based on their more than 60 combined years of research into the function of the brain the authors reveal how psychoactive substances such as DMT allow the brain to bypass our five basic senses to unlock a multidimensional realm of existence where otherworldly communication occurs They contend that our centuries old search for alien life forms has been misdirected and that the alien worlds reflected in visionary science fiction actually mirror the inner space world of our minds The authors show that these alien worlds encountered through altered states of human awareness either through the use of psychedelics or other methods possess a sense of reality as great as or greater than those of the ordinary awareness perceived by our five senses [The Psychedelic Explorer's Guide](#) James Fadiman, 2011-05-18 Psychedelics for spiritual therapeutic and problem solving use Presents practices for safe and successful psychedelic voyages including the benefits of having a guide and how to be a guide Reviews the value of psychedelics for healing and self discovery as well as how LSD has facilitated scientific and technical problem solving Reveals how microdosing ultr low doses improve cognitive functioning emotional balance and physical stamina This year 600 000 people in the U S alone will try LSD for the first time joining the 23 million who have already experimented with this substance Called America s wisest and most respected authority on psychedelics and their use James Fadiman has been involved with psychedelic research since the 1960s In this guide to the immediate and long term effects of psychedelic use for spiritual high dose therapeutic moderate dose and problem solving low dose and microdose purposes Fadiman outlines best practices for safe sacred entheogenic voyages learned through his more than 40 years of experience from the benefits of having a sensitive guide during a session and how to be one to the importance of the setting and pre session intention Fadiman reviews the newest as well as the neglected research into the psychotherapeutic value of visionary drug use for increased personal awareness and a host of serious medical conditions including his recent study of the reasons for and results of psychedelic use among hundreds of students and professionals He reveals new uses for LSD and other psychedelics including microdosing extremely low doses for improved cognitive functioning and emotional balance Cautioning that psychedelics are not for everyone he dispels the myths and misperceptions about psychedelics circulating in textbooks and clinics as well as

on the internet Exploring the life changing experiences of Ram Dass Timothy Leary Aldous Huxley and Huston Smith as well as Francis Crick and Steve Jobs Fadiman shows how psychedelics used wisely can lead not only to healing but also to scientific breakthroughs and spiritual epiphanies

Mystery School in Hyperspace Graham St John, 2015-11-24 Since the mid 1950s the psychoactive compound DMT has attracted the attention of experimentalists and prohibitionists scientists and artists alchemists and hyperspace emissaries While most known as a crucial component of the jungle alchemy that is ayahuasca DMT is a unique story unto itself Until now this story has remained untold Mystery School in Hyperspace is the first book to delve into the history of this substance the discovery of its properties and the impact it has had on poets artists and musicians DMT has appeared at crucial junctures in countercultural history William Burroughs was jacking the spice in Tangier at the turn of the 1960s It was present at the meeting between Ken Kesey s Merry Pranksters and Tim Leary s associates It guided the inception of the Grateful Dead in 1965 It showed up in Berkeley in the same year falling into the hands of Terence McKenna who would eventually become its champion in the post rave neo psychedelic movement of the 1990s Its indole vapor drifted through Portugal s Boom Festival and has been evident at Nevada s Burning Man where DMT has been adopted as spiritual technology supplying shape color and depth to a visionary art movement The growing prevalence of use is evident in a vast networked independent research culture and in its impact on fiction film music and metaphysics As this book traces the effect of DMT s release into the cultural bloodstream the results should be of great interest to contemporary readers The book permits a broad reading audience to join ongoing debates in studies in consciousness and theology where the brain is held to be either a generator or a receiver of consciousness The implications of the spirit molecule or the brain s own psychedelic among other theories illustrate that DMT may lift the lid on the Pandora s Box of consciousness Features a foreword by Dennis McKenna cover art by Beau Deeley and thirty color illustrations by various artists including Alex Grey Android Jones Martina Hoffmann Luke Brown Carey Thompson Adam Scott Miller Randal Roberts along with Jay Bryan Cyb Orrylene Defenestrade Bascule Art Van D lay Stuart Griggs Jay Lincoln Gwyllm Llwydd Shiptu Shaboo Marianna Stelmach and Mister Strange Regarded as the nightmare hallucinogen or celebrated as the spirit molecule labelled psychotogenic or entheogenic considered a dangerous drug or the suspected X factor in the evolution of consciousness DMT is a powerful enigma Documenting the scientists and artists drawn into its sphere of influence navigating the liminal aesthetics of the breakthrough experience tracing the novum of hyperspace in esoteric and science fiction currents Mystery School in Hyperspace excavates the significance of this enigmatic phenomenon in the modern world Exposing a great many myths this cultural history reveals how DMT has had a beneficial influence on the lives of those belonging to a vast underground network whose reports and initiatives expose drug war propaganda and shine a light in the shadows This conversation is highly relevant at a time when significant advances are being made to lift the moratorium on human research with psychedelics

Acorns: Windows High-Tide Foghat Joshua Morris, 2013-01-23 Acorns delineates

the future of humanity as a reunification of intellect with the Deep Self Having chosen to focus upon ego established securely by the time of Christ much more beta brain wave development will destroy our species and others which process has already begun We create our own realities through beliefs intents and desires and we were in and out of probabilities constantly Feelings follow beliefs not the other way around *Tranceformers Shamans of the 21st Century* John Jay Harper, 2009 *Tranceformers Shamans of the 21st Century* is the true story of this author's contact with a dead optics physicist colleague and the telepathic communication that sent him searching for scientific answers to his spiritual questions Harper draws from this deep well of wisdom astrology biology near death experiences paranormal psychology quantum physics as well as Egyptian and Mayan cosmology overall He does an excellent job of synthesizing massive amounts of information making this shift of the ages comprehensible to the general reader Clearly this is a necessary primer to understand the coming apocalypse of biblical proportions in consciousness climate culture and civilization However the theme of this book is that by learning to use trance the techniques employed by mystics prophets and shamans one can unlock the mysteries of existence for themselves Indeed this is the big idea behind the Eternal Return of the Sun of God in 2012 Self Empowerment

Entheologues: Conversations with Leading Psychedelic Thinkers, Explorers and Researchers Martin W. Ball, 2009-07-01 *Entheologues* presents a fascinating collection of interviews with top figures in the entheogenic field James Oroc talks about God 5 MeO DMT zero point energy and the Akashic Field Rick Strassman discusses his new book and shares the surprising results of his DMT study along with his hopes for an entheogenic research center Jan Irvin and John Rush discuss the roles of psychedelic mushrooms and other visionary sacraments in Christianity Judaism and Islam In the final interview Daniel Siebert gives a detailed history of *Salvia divinorum* Completing the book Martin W Ball makes a strong case for the human right to entheogen use as religious sacraments Was Jesus a psychedelic mushroom Do DMT experiences send people into alternate realities What is the legal status of entheogens for spiritual use Why are there so many mushroom images in Christian art Can 5 MeO DMT bring about realization of God These questions and more are answered in *Entheologues*

How Do You Pray? Celeste Yacoboni, 2014-07-08 One hundred and eight well known spiritual leaders respond to the question How do you pray **DMT: The Spirit Molecule** Rick Strassman, 2000-12-01 A clinical psychiatrist explores the effects of DMT one of the most powerful psychedelics known A behind the scenes look at the cutting edge of psychedelic research Provides a unique scientific explanation for the phenomenon of alien abduction experiences From 1990 to 1995 Dr Rick Strassman conducted U S Government approved and funded clinical research at the University of New Mexico in which he injected sixty volunteers with DMT one of the most powerful psychedelics known His detailed account of those sessions is an extraordinarily riveting inquiry into the nature of the human mind and the therapeutic potential of psychedelics DMT a plant derived chemical found in the psychedelic Amazon brew ayahuasca is also manufactured by the human brain In Strassman's volunteers it consistently produced near death and mystical experiences Many reported convincing encounters

with intelligent nonhuman presences aliens angels and spirits Nearly all felt that the sessions were among the most profound experiences of their lives Strassman s research connects DMT with the pineal gland considered by Hindus to be the site of the seventh chakra and by Rene Descartes to be the seat of the soul DMT The Spirit Molecule makes the bold case that DMT naturally released by the pineal gland facilitates the soul s movement in and out of the body and is an integral part of the birth and death experiences as well as the highest states of meditation and even sexual transcendence Strassman also believes that alien abduction experiences are brought on by accidental releases of DMT If used wisely DMT could trigger a period of remarkable progress in the scientific exploration of the most mystical regions of the human mind and soul DMT and the Soul of Prophecy Rick Strassman,2014-09-18 Naturally occurring DMT may produce prophecy like states of consciousness and thus represent a bridge between biology and religious experience Reveals the striking similarities between the visions of the Hebrew prophets and the DMT state described by Strassman s research volunteers Explains how prophetic and psychedelic states may share biological mechanisms Presents a new top down theoneurological model of spiritual experience After completing his groundbreaking research chronicled in DMT The Spirit Molecule Rick Strassman was left with one fundamental question What does it mean that DMT a simple chemical naturally found in all of our bodies instantaneously opens us to an interactive spirit world that feels more real than our own world When his decades of clinical psychiatric research and Buddhist practice were unable to provide answers to this question Strassman began searching for a more resonant spiritual model He found that the visions of the Hebrew prophets such as Ezekiel Moses Adam and Daniel were strikingly similar to those of the volunteers in his DMT studies Carefully examining the concept of prophecy in the Hebrew Bible he characterizes a prophetic state of consciousness and explains how it may share biological and metaphysical mechanisms with the DMT effect Examining medieval commentaries on the Hebrew Bible Strassman reveals how Jewish metaphysics provides a top down model for both the prophetic and DMT states a model he calls theoneurology Theoneurology bridges biology and spirituality by proposing that the Divine communicates with us using the brain and DMT whether naturally produced or ingested is a critical factor in such visionary experience This model provides a counterpoint to neurotheology which proposes that altered brain function simply generates the impression of a Divine human encounter Theoneurology addresses issues critical to the full flowering of the psychedelic drug experience Perhaps even more important it points the way to a renewal of classical prophetic consciousness the soul of Hebrew Bible prophecy as well as unexpected directions for the evolution of contemporary spiritual practice **The Psychedelic Handbook** Rick Strassman,2022-08-09 Learn everything you need to know about psychedelics with this ultimate guide packed with information on popular psychedelic drugs like psilocybin ketamine MDMA DMT and LSD plus practical tips for microdosing and how to safely trip from bestselling author Dr Rick Strassman Entering the world of psychedelic drugs can be challenging and many aren t sure where to start As research continues to expand and legalization looms on the horizon for psychedelics

like psilocybin you may need a guide to navigate what psychedelics are how they work and their potential benefits and risks The Psychedelic Handbook is a complete manual that is accessible to anyone with an interest in these mind manifesting substances Packed with information on psilocybin LSD DMT ayahuasca mescaline peyote ketamine MDMA ibogaine 5 methoxy DMT the toad and Salvia divinorum salvinorin A this book is your ultimate reference for understanding the science and history of psychedelics discovering their potential to treat depression PTSD substance abuse and other disorders as well as to increase wellness creativity and meditation learning how to safely trip and explaining what we know about microdosing and recognizing and caring for negative reactions to psychedelics Clinical research psychiatrist founding figure of the American psychedelic research renaissance and best selling author of DMT The Spirit Molecule Dr Rick Strassman shares his experience and perspectives as neither advocate nor foe of psychedelics in order to help readers understand the effects of these remarkable drugs *Joseph Levy Escapes Death* Rick Strassman,2019 Retired psychiatrist Joseph Levy gets a new crown setting in motion a year of two near fatal illnesses a drug overdose and two calamitous relationships His dreams take on deeper meaning while he relies on prayer friends and a new psychotherapist to see him through

Yeah, reviewing a books **Inner Paths To Outer Space By Rick Strassman M D** could go to your near contacts listings. This is just one of the solutions for you to be successful. As understood, completion does not suggest that you have extraordinary points.

Comprehending as skillfully as deal even more than additional will have enough money each success. next to, the publication as without difficulty as perception of this Inner Paths To Outer Space By Rick Strassman M D can be taken as without difficulty as picked to act.
