

# Internal Control & Fraud Awareness

2-day workshop, 29<sup>th</sup> and 30<sup>th</sup> June, Hanoi

Explaining the world of  
Internal Control & Fraud  
Awareness

## Objective

To convince you of the importance of good controls both for business reasons and for regulatory compliance and a practical focus to enable you to take good practice to your workplace.

## What should internal?

Directors or managers who would like to know more about internal control or are new to the function

This is an internal security course and is not intended for people who already have a professional qualification in this subject.

## Benefits of attending

In an increasingly regulated corporate world many organisations need assistance making necessary changes to their business practices. Internal controls are no longer a reserve for finance staff but all management who are required to take ownership of and sign off on controls. The challenge however is to understand how you can create a strong control environment in your organisation and how you can practically implement an Internal Control framework.

This course is your first building block in a strong structure called internal control that allows you to achieve your business, financial reporting and compliance objectives. Course material is based on a strong methodology grounded in regulations associated with Corporate Governance and the COSO framework.

By the end of the workshop participants will:

- Be convinced of the importance of good control both for business reasons and regulatory compliance
- Be aware of the regulatory environment which requires that businesses demonstrate strong controls
- Understand the fundamentals of control including key types of control, IT controls and reconciliation controls
- Be conscious of control in your everyday work, becoming "ambassadors" for good control, including operations, monitoring and reviewing effectiveness of existing controls in your own organisations
- Have considered fraud and how to reduce the risk of fraud in their organisations by implementing and maintaining a strong and effective control environment.
