[The Handbook of Artificial Intelligence and Journalism](#) Aynur Sarisakaloğlu, Martin Löffelholz, 2025-12-23 Presents a comprehensive global overview of AI driven journalism and its transformative impact on media practices As artificial intelligence AI continues to reshape the media landscape The Handbook of Artificial Intelligence and Journalism provides the first comprehensive academic exploration of the intersection between AI technologies and journalism Edited by Aynur Sarisakaloğlu and Martin Löffelholz this foundational volume brings

together 37 leading scholars from six continents to examine how AI is redefining the structures practices and epistemologies of journalism Organized around key thematic areas the Handbook investigates the driving forces propelling the algorithmic transformation and unveils emerging trends in journalistic practice and journalism research moving beyond Western centric perspectives to incorporate diverse global experiences and knowledge production Twenty eight original chapters address systemic shifts such as evolving structures of media organizations changing roles of actors transformations in news production routines and shifting patterns of news consumption By integrating theoretical empirical and practical perspectives the Handbook sets the stage for a new research agenda for understanding AI driven journalism on a global scale Containing rigorous interdisciplinary scholarship and broad geographical coverage The Handbook of Artificial Intelligence and Journalism Integrates theoretical foundations empirical studies and practical applications in a cohesive structure Offers insights into journalism practices across a wide range of geographical contexts and engages with approaches that transcends Western dominated paradigms incorporating perspectives from the Global South Employs interdisciplinary frameworks to enhance the understanding of AI driven journalism Examines the sociotechnical dynamics of AI including its potential benefits and challenges for journalism Presents forward looking reflections on the future of journalism research in the AI era The Handbook of Artificial Intelligence and Journalism is ideal for undergraduate graduate and doctoral students in journalism communication and media studies programs It also serves as a vital reference for researchers educators media professionals and policy advisors engaged in digital journalism journalism research media innovation and public communication

Marketing 5.0 Ajay Kumar,M. D. Ciddikie,Anil Kumar Kashyap,Hafiz Wasim Akram,2025-03-14 Marketing 5 0 introduces academics and marketers to the concept of human mimicking technologies to create communicate deliver and enhance value across the customer journey

Modernising Access to Social Protection Strategies, Technologies and Data Advances in OECD Countries OECD,2024-05-28 Despite having advanced social protection systems OECD countries still face challenges in identifying enrolling and providing benefits and services to all those in need Even when programmes are well designed and adequately funded cumbersome enrolment processes and challenges in service and benefit delivery can be an obstacle to the full take up of social programmes Advances in digital technologies and data can go a long way towards making social protection more accessible and effective This report presents a stocktaking of OECD governments strategies to identify individuals and groups in need collect and link potential beneficiary data across administrative and survey sources and apply data analytics and new technologies to improve programme enrolment and the benefit service delivery experience all with the objective of reaching people in need of support in OECD countries

Decolonising Death Studies Panagiotis Pentaris,Stacey Pitsillides,Hajar Ghorbani,2026-01-22 Social and cultural factors can strongly influence how we approach death and dying including attitudes towards death rituals and practices surrounding death and end of life care Current knowledge in death studies tends to be influenced by Western views which can limit its application to policy and

practice The increasing diversity and plurality of populations around the world requires further attention to be paid to diversifying evidence and knowledge to ensure that it effectively serves its beneficiaries This book provides cutting edge discourses and debates on death studies as a global and international field of research and practice By hosting the space for interdisciplinary international contributions especially from under represented groups it advances our exploration of both knowledge outside of the colonised and the degree of the current knowledge s applicability in the field Offering a truly innovative contribution to the field through its clear emphasis on decolonizing methodologies and perspectives it highlights decolonization as a central framework and pushes boundaries and challenges established norms paving the way for new and transformative conversations within death studies Through its collaborative and interdisciplinary approach the proposal breaks new ground by bringing together a diverse range of perspectives and voices fostering rich dialogue and promoting inclusivity This innovative approach promises to catalyse meaningful change and advance critical scholarship in death studies It will be of interest to all undergraduate and postgraduate courses on death studies across both humanities and social sciences
