Asian Youth Travellers Catheryn Khoo-Lattimore, Elaine Chiao Ling Yang, 2018-03-23 This book offers a bird's eye view of the current trends, opportunities and challenges related to Asian youth travellers and it also presents a holistic framework for future research to build upon. Managerial and policy implications are provided for the tourism and hospitality industry and government agencies to better accommodate the needs of Asian youth travellers, a unique and diverse market that is yet to be fully unveiled to the world. The book investigates the key characteristics that define contemporary Asian youth travellers, adopting a broad definition of Asia. While it includes relatively mature markets, it also features emerging markets in Southeast Asia, South Asia and West Asia. The book looks at different forms of tourism undertaken by Asian travellers, encompassing educational tourism, adventure tourism, working holiday, self-driving tourism, dark tourism, volunteer tourism and cultural tourism. A wide range of topics are discussed, from history to current trends, from motivations to constraints, from the influence of culture and religion on travel behaviour to the search of social freedom through travel and from destination choice to destination avoidance. The findings and interpretations are drawn from diverse and novel research methods such as netnography, visual anthropology, historiography, interview, focus group, survey and document analysis. **Youth**

Unemployment Scenarios Maximilian Matschke, 2022-10-27 This book examines the factors driving youth unemployment in South Africa, exploring potential future outcomes of its mass unemployment and offering a variety of strategies to avoid an impending crisis in the country. Utilizing scenario analysis rooted in complex systems theory while building on statistical and field research, the author illustrates four possible future states of youth employment in South Africa in the year 2040. This includes the South African version of the Arab Spring, where young people riot or agitate for extreme political and social change because of a belief that access to education and jobs is only possible through social status or corruption. Spring: fair access to a high number of jobs supported by Chinese interventions. Summer: a technology-driven decline in the number of jobs where merit-based access for youth is granted. Fall: the collapse of the economy with the economy collapsing and youth becoming increasingly desperate. Winter: The author then presents five strategies to fight youth unemployment, including training of youth to start businesses, stimulating small and medium-sized enterprises, and sending unemployed youth abroad for skills development and to where their labour is needed. This book will be of interest to scholars of South African politics and economics, labour economics and youth studies, and readers with an interest in tackling youth unemployment independent of the country. **Smart Cities** Rajendra Joshi, 2019-12-18
