**Understand Blog Content Writing** Aysegul Balkose, 2021-05-17. Story. It is about a story, the plot, and its characters. You, blog writers, are storytellers. Here is the twist: you are also one of the main characters. The blog has an angle for the plot and its perception of the world around it. Blog as an entity has an identity, the way of thinking and acting. It has ideas of its own. It is a great help to define these for the blog and yourself as the writer before you start chucking in your best ideas and publishing them. Blogs want to be found on Google. For this, their content should be countered on the Reader. Not everyone will use the same words to search. To search relevant content, they will use Semantic words. Your job is to write content which covers these Semantic search. The reason I am writing this book is because it would make me feel so happy if I can help people understand the core concepts of blog writing. This was a struggle for me when I started writing blogs. I believe that knowing a basic working structure gives people the opportunity to leap forward faster. By helping others to decode basic concepts, I know I am also helping myself as I embark on another journey of taking responsibility. My mission is to make people learn some life-changing concepts quicker regardless of where they find themselves in life.

**Content Creation Handbook** Aurelius Tjin, 2021. If you're a blogger, video marketer, internet marketer, or an information product creator, you've no doubt struggled with the question of content. You can have the best ideas, but if you don't know how to use that idea to build quality content for a website, it probably won't be successful. When it comes to your website, every part is important. Sure, you want the right font, color, design, etc. The most important part of your website, however, is your content. Without quality content, your website cannot survive. It is important to remember: Content is everything. When you first start your site, you give a great deal of time to picking out the perfect domain name. There's a reason you select a good domain name: It's where your site lives. If your website is your domain, then think of content as the king of that domain. In other words, content rules. Many start-up businesses and even established business owners who've decided it's time their business had a professional web presence don't know where to start when it comes to planning their website. There are so many things to consider and so many choices. Just getting the design and layout of the website can be
