**Exploring the effects and mechanisms of a Universal Basic Income on Education**, 2022-06-21 Academic Paper from the year 2022 in the subject Economics Other University of St Gallen language English abstract This paper aims to find out about the effects of a Universal Basic Income on education At first the concept of the Universal Basic Income will be explained and it will be put into a global context Further its effect on education will be analyzed using various studies conducted over the last decades to estimate the short term impacts a UBI would have on education In order to also go into detail on long term effects the latter analysis will be complemented with a model by Daruich Fernandez 2020 This will show that while short term effects

of a Universal Basic Income might seem favorable when viewing a UBI policy over a longer time frame effects such as a general equilibrium and intergenerational linkages come into play This leads to the conclusion that while a Universal basic income might seem to increase education standards at first glance over the long term this would most likely not be the case even considering extreme scenarios such as massive job losses due to automation
