Lampoltshammer,Helmut Leopold,Manfred Mayr,2022-03-29 Organizations have moved already from the rigid structure of classical project management towards the adoption of agile approaches This holds also true for software development projects which need to be flexible to adopt to rapid requests of clients as well to reflect changes that are required due to architectural design decisions With data science having established itself as corner stone within organizations and businesses it is now imperative to perform this crucial step

for analytical business processes as well. The non deterministic nature of data science and its inherent analytical tasks require an interactive approach towards an evolutionary step by step development to realize core essential business applications and use cases. The 4th International Data Science Conference iDSC 2021 brought together researchers, scientists and business experts to discuss means of establishing new ways of embracing agile approaches within the various domains of data science such as machine learning and AI, data mining or visualization and communication as well as case studies and best practices from leading research institutions and business companies. The proceedings include all full papers presented in the scientific track and the corresponding German abstracts as well as the short papers from the student track. Among the topics of interest are Artificial Intelligence and Machine Learning, Implementation of data mining processes, Agile Data Science and Visualization, Case Studies and Applications for Agile Data Science. Organisationen sind bereits von der starren Struktur des klassischen Projektmanagements zu agilen Ansätzen übergegangen. Dies gilt auch für Softwareentwicklungsprojekte, die flexibel sein müssen, um schnell auf die Wünsche der Kunden reagieren zu können und Änderungen zu berücksichtigen, die aufgrund von Architekturentscheidungen erforderlich sind. Nachdem sich die Datenwissenschaft als Eckpfeiler in Organisationen und Unternehmen etabliert hat, ist es nun zwingend erforderlich, diesen entscheidenden Schritt auch für analytische Geschäftsprozesse durchzuführen. Die nicht deterministische Natur der Datenwissenschaft und die ihr innewohnenden analytischen Aufgaben erfordern einen interaktiven Ansatz für eine evolutionäre schrittweise Entwicklung zur Realisierung der wichtigsten Geschäftsanwendungen und Anwendungsfälle. Die 4. Internationale Konferenz zur Datenwissenschaft iDSC 2021 brachte Forscher, Wissenschaftler und Wirtschaftsexperten zusammen, um Möglichkeiten zu erörtern, wie neue Wege zur Umsetzung agiler Ansätze in den verschiedenen Bereichen der Datenwissenschaft wie maschinelles Lernen und KI, Data Mining oder Visualisierung und Kommunikation sowie Fallstudien und Best Practices von führenden Forschungseinrichtungen und Wirtschaftsunternehmen etabliert werden können. Der Tagungsband umfasst alle im wissenschaftlichen Track vorgestellten Volltexte und die Kurzbeiträge aus dem studentischen Track auf Englisch und die dazugehörigen Abstracts auf Deutsch. Zu den Themen, die sie interessieren gehen, unter anderem Künstliche Intelligenz und Maschinelles Lernen, Implementierung von Data Mining Prozessen, Agile Datenwissenschaft und Visualisierung, Fallstudien und Anwendungen für Agile Datenwissenschaft.

Essential Introduction to Computers Gary B. Shelly, Thomas J. Cashman, Misty E. Vermaat, 2007-04. The perfect coverage of essential computer concepts for a course geared towards application software. Expanding Horizons in Open and Distance Learning Jennifer Roberts, Mutuota Kigotho, Adrian Stagg, 2020-06-09. This book brings together a collection of articles that were presented at the Open and Distance Learning Association of Australia (ODLAA) conference in February 2017. The authors share the common agenda of creating meaningful research in the field of distance education. Distinct themes in educational research including

open distance and flexible education emerged from the conference and this collection addresses each of these themes The themes explored include teaching and learning playing an integral role in Open and Distance Learning ODL research ways in which technology is used in the teaching of science subjects how technology is applied in everyday lives specifically in the areas of transport accommodation and in ordering food the important and often neglected area of research related to staff development and competencies research regarding Open Educational Practices OEP and the importance of distance education in developing countries where online interaction is often a challenge largely because of the lack of stable internet connectivity This book was originally published as a special issue of Distance Education **Remote data entry A**
