Affiliate Marketing For Beginners Tim Murphy, 2020-12-29 If you were to ask a random user of the Internet what he or she thought Affiliate Marketing was he or she would likely claim that it was a way of making money online as an intermediary Here people make a commission from a sale or a referral when a visitor to his or her site clicks on a link that directs him or her to a product or page online However as much as there is a lot of truth there Affiliate Marketing does not only have to take place online For example affiliate marketing is also where a plumber gives a client a discount for referring him or her to a new client It is the same concept This kind of marketing happens a lot in the real world but people do not trace or coordinate it as much as is the case with online marketing Business owners can ask their customers how they came to know about them in an effort to learn about their client base but they cannot get as much information as they would be using online tracking The growing online market has made this type of marketing more popular and profitable It has also made it easier to grow and expand whatever type of business an individual is in with the help of numerous professional marketers who will not necessarily appear on their payroll Therefore while its history started long before the invention of the Internet the Internet has transformed it and made it widely available to the masses You will start by learning all about the ins and outs of affiliate marketing and what you need to get your feet wet in the marketing world You will then learn about the importance of choosing the right niche and how to find one that will provide you with a sustainable passive income stream for years to come From there you will learn the key steps to creating a website that will attract the right type of users as well as the importance of SEO and how to ensure that your new website shows up in as many different sets of search results as possible Finally you will learn just what it takes to create the type of quality content that ensures people keeping back for

If this book made you an extra 1000 a month would it be worth it The Small Business Administration claims 50% of small businesses fail within the first year and 95% fail within the first 5 years I didn t want to invest in a business then lose all my money I was skeptical of everyone

and I was surrounded by gurus claiming to have the answer to online business The truth is there are several models that work and everything all boils down to the same concepts While I started out selling random products on auction websites 4 years later I wound up with an enterprise of nearly a dozen employees and over 8 websites Each site brings in profit each month like a stream of passive income flowing into one big river The revenue from all of these websites is over 5 million a year This is the new wave of creating financial stability and it all starts with a blog Think of it like real estate You can create the building style it to attract certain people then make money off those who enter While it is not as easy as it may sound it can be done quickly and for very little upfront cost In this book I will teach you Pure gold nuggets of internet marketing you will remember for years to come The secret of customer acquisition through multiple mediums ranging from free to paid How to turn a profit from each visitor This can range from completely passive advertisements to selling them products with huge profit margins My favorite barely known resources for getting painful tasks done cheaply The best paying affiliate and advertising programs this can make or break your website How our team routinely makes sales over 500 profit Typically people who want coaching with me need to pay 300 hr Here s the truth 99% of the people who actually make a killing on the internet are not writing books about it The majority of people publishing books make their income through branding themselves NOT through the tactics discussed here Executing what is taught in this book will allow you to enjoy a business where you do not need to reveal your identity and can lay low behind the scenes If you find the instructions and tactics in this book are not useful return it and get a full refund This book is not for everyone it is only for those who truly want to learn the foundations of creating wealth online for years to come You don t have to sit on the fence any longer Scroll up dive in and enjoy the journey
