Cummings, 2008 The contributors reflect the field of organizational development's rapid growth and success since its inception 50 years ago into a far more complex study than it was just a few decades ago. They show how organizational development has expanded from dealing with internal problems to the need to address more strategic issues. *Open education for sustainable development: Contributions from emerging technologies and educational innovation* Maria-Soledad Ramirez-Montoya, Carina Soledad González González, Diana Hernández Montoya, Edgar Omar Lopez-Caudana, Guillermo Rodríguez-Abitia, 2023-03-24

Mastering Virtual Teams Deborah L. Duarte, Nancy Tennant Snyder, 2011-02-02 This third edition of the best selling resource *Mastering Virtual Teams* offers a toolkit for leaders and members of virtual teams. The revised and expanded edition includes a CD ROM with useful resources that allow virtual teams to access and use the book's checklists, assessments, and other practical tools quickly and easily. Deborah L. Duarte and Nancy Tennant Snyder include updated guidelines, strategies, and best practices for working effectively with virtual teams across time and distance to see a project through. International Executive Development Programmes Roderick Millar, 2003 Annual guide to educational institutions and business centers offering executive and management education worldwide. Relevant for executives seeking international business education exposure. Index of specialties ranging from accounting, strategy planning, and change management through conflict management, corporate finance, and strategy to global management, leadership, logistics, project management, and recruitment and team building, listing which schools offer them. This is the only genuinely international directory to senior management education. There are clearly a large number of US directories to North American MBA courses, and other countries produce similar publications. However, information on shorter courses as covered by this Guide are rare. Now in its seventh edition, this directory to worldwide courses for middle and senior management has been extensively revised and is linked to a dedicated website. The directory is backed up by a series of articles from leading business schools, management academics, and executives from leading companies. These articles focus on different aspects and approaches to executive education. *Scientific and*
